

The English Honours

2015-16

This is a chart of the requirements for the honours.

A few other things to think about:

- Consult the Calendar Supplement (available in August at the English Department office and online) to learn about new courses and seminar topics.
- Meet with your advisor at least once a year.
- Some courses have specific prerequisites; in general, one 100-level course is required before you take a 200-level; one 200-level is required before you take a 300-level; and one 300-level is required before the 400-level.
