- (b) Assets in the Retirees' Sub-fund as of January 1, 2000 shall continue to be assets of the trust fund, but shall not be physically separated from other assets of the trust fund as of that date.
- (c) On and after January 1, 2000, all pension benefits payable to Pensioners and joint pensioners under this Plan shall be paid from the trust fund.
- (d) Pensions in the course of payment under the Plan as of January 1, 2001 shall be increased to the extent that the trust fund earns investment income at a rate greater than the rate of interest required according to the actuarial assumptions used in the most recent formal actuarial valuation of Plan to value such pensions.
- (e) The percentage increases to be made effective January 1, 2001 and thereafter, calculated in accordance with subsection 12.7 (d), shall be determined by dividing:

In this latter case, only 50% of the overall remaining assets shall be returned to the University, with the balance (after application of this subsection) being used, on the advice of the actuary, to further improve benefits for Pensioners, their joint pensioners, Members, and Former Members as at the date of termination.
