

# Request for Exempt Review

## RESEARCH PRESENTING MINIMAL RISK TO HUMAN PARTICIPANTS

<b>Principal Investigator</b>	
<b>Project Title</b>	

In order for research to be considered exempt from UPEI REB review, it must fall into one or more of the following categories. Please indicate which area(s) apply to your study:

**NOTE:** Please attach a summary of the research to be conducted to this form.

- 1.** Research conducted in established or commonly accepted educational settings, normal educational practices, e.g.
- i)** research on regular and special education instructional strategies or
  - ii)** research on the effectiveness of, or the comparison among, instructional techniques, curricula or classroom management techniques.
- 2.** Research involving the use of 1) educational tests (cognitive, diagnostic, aptitude, achievement), 2) survey procedures or observation of public behavior unless:
- i)** information obtained is recorded in such a manner that human subjects can be identified, either directly or through identifiers linked to the subject, or
  - ii)** any disclosure of the human subject's responses outside the research could reasonably place the subject at risk of criminal or civil liability or be damaging to the subjects financial standing, employability or reputation.
- 3.** Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement) survey procedures, interview procedures, or observation of public where the human subjects are elected or appointed public officials or candidates for public office.
- 4.** Research involving the collection or study of existing data, documents, or records,
- i)** where these sources are publicly available or where the information is recorded by the investigator in such a manner that participants cannot be identified either directly or
  - ii)** through identifiers linked to the participants and permission to access the records has been obtained (attach documentation).
- 5.** Taste and food quality evaluation and consumer acceptance studies
- i)** where wholesome foods without additives are consumed
  - ii)** where a food is consumed that contains
    - a)** a food ingredient at or below the level, and for a use found to be safe, or
    - b)** the agricultural chemical or environmental contaminant at or below the level found to be safe, by the CFIA. (Provide appropriate verification documents).
