

**UNIVERSITY OF PRINCE EDWARD ISLAND
RESEARCH SUPPORT FUND
2017-2018 PERFORMANCE OUTCOMES REPORT**

The Research Support Fund (RSF) continues to support and sustain UPEI's research environment. These funds have allowed UPEI to support the research infrastructure and support services to dedicated researchers

2017-18	Performance Objective	Indicator	Targeted Outcomes	Reported Outcomes
Facilities \$140,700 15%	<ul style="list-style-type: none"> Support research by offsetting operating costs related to research space 	<ul style="list-style-type: none"> Funds are used to offset operating costs 	<ol style="list-style-type: none"> Research facilities operating costs are supported 	<ol style="list-style-type: none"> Research facilities maintained
Resources \$107,895 12%	<ul style="list-style-type: none"> Manage and promote the secure institutional repository (SIDR) to support compliance with tri-agency Open Access Policy. Maintain as many core databases as possible considering rising costs Facilitate the management and preservation of research data Educate graduate students in data planning and management Expand Institutional Repository (IslandScholar) Support continued development of Fedora4 preservation repository platform Support digital infrastructure framework (Duraspace) 	<ul style="list-style-type: none"> Number of training sessions for researchers to use SIDR Core databases maintained Data sets preserved and tools for developing data management plans created Graduate students receive training in data planning and management Library staff contribute to new Fedora code development Invest in site license/membership to Duraspace 	<ol style="list-style-type: none"> Offer 2 training sessions or workshops relevant to SIDR capabilities Increase the number of researchers storing data in SIDR to 5 Number of databases maintained Assist with the creation of data management plans. Deposit additional public datasets Two workshops for graduate students will be offered in data planning and management UPEI resolves 8-10 Fedora-related development issues The library supports digital infrastructure through DuraSpace Maintain the number of SPUR participants 	<ol style="list-style-type: none"> Introduced SIDR's storage capabilities to a research group and graduate student researcher Met target. Able to maintain existing databases Additional dataset deposited and 442 citations added. Exceeded target. Three workshops offered. Emphasis on this outcome has changed with new focus on developing next version of Islandora, which leverages new version of Fedora. Support provided for an additional year. SPUR had 27 participants.
Management and Administration \$338,607 36%	<ul style="list-style-type: none"> Streamline processes and increase assistance with proposal preparation Process additional contracts and agreements Continue updates for Process Pathways database Purchase materials to support equity, diversity and inclusion training Support staff to attend 	<ul style="list-style-type: none"> Number of UPEI led tri-council applications submitted Number of non-tri-council awards becoming active in the year Number of non-tri-council applications initiated Number of contracts and agreements processed Database updates successfully implemented 	<ol style="list-style-type: none"> Increase number of UPEI led tri-council applications from 40 to 43 Increase number of non-tri-council awards becoming active in the year from 33 to 35 Increase number of non-tri-council applications initiated to from 49 to 50 Increase number of contracts and agreements processed from 187 to 190 	<ol style="list-style-type: none"> UPEI led tri-council applications increased to 52. Number of non tri-council awards becoming active decreased to 31. Number of non-tri-council applications increased to 53. Number of contracts and agreements increased to 215 Continued efforts to reduce reporting time

	CAREB and CARA	<ul style="list-style-type: none"> Educational materials purchased Staff participate in useful training opportunities 	<p>14. Reduce time required to produce reports for departments and funders</p> <p>15. Purchase 10 copies of book recommended by CRCP for CRC Selection committees</p> <p>16. Provide total of 10 training days for research & compliance staff</p>	<p>15. Books purchased</p> <p>16. Staff attended regional CARA/CAREB meetings and participated in other training days as available.</p>
Regulatory Requirements & Accreditation \$195,241 21%	<ul style="list-style-type: none"> Streamline processes and increase assistance with applications 	<ul style="list-style-type: none"> Number of applications for ethics, biosafety and animal care 	<p>17. Maintain the number of active applications at 485</p>	<p>17. Active applications increased to 531</p>
Intellectual Property & Knowledge Mobilization \$147,623 16%	<ul style="list-style-type: none"> Provide more tech transfer services to faculty Develop and process collaborations with industry Assist in licensing technology or creation of spin-out companies 	<ul style="list-style-type: none"> Number of researchers working with Synapse Number of collaborations with industry Number of licenses or spin-out companies External collaborations encouraged via proposal review and contact with Synapse 	<p>18. Engage with at least 8 faculty members per quarter</p> <p>19. Host 4 workshops with faculty and industry</p> <p>20. Evaluate 8 technologies with commercial potential</p> <p>21. Facilitate 15 industry funded collaborations</p> <p>22. Facilitate 20 publicly funded collaborations with industry</p> <p>23. Facilitate 3 licenses or spin-out companies</p>	<p>18. Exceeded target. 10.5 per quarter</p> <p>19. Target met</p> <p>20. Target met</p> <p>21. Target exceeded</p> <p>22. Target exceeded</p> <p>23. Target met. 2 spinouts, a 3rd in process, and license negotiated</p>

Research Support Fund Communication Strategy

In 2017-18, Objective 1 & 3 were met.

The purpose of the Communications Strategy is to set measurable goals to best promote the Research Support Fund and its value and impact at the University of Prince Edward Island.

Audience

UPEI will target three main audiences: the UPEI campus community, policy makers, and the general public.

Objectives and Timelines

1. Enhance current RSF web page

As per the reporting requirements for the Research Support Fund, UPEI maintains and updates a web page at <http://www.upei.ca/research/research-support-fund>. UPEI will update and expand the site to reflect 2017 data, branding, and objectives. (June 2017)

2. RSF stories in UPEI's Campus Connector

UPEI produces a twice-monthly electronic newsletter called Campus Connector, which aggregates stories and press releases from the university. Campus Connector reaches more than 2,000 users from the campus community and beyond, including policy makers. The Research Communications Officer will submit two 250-300 word stories in 2017/18 about the technology, personnel, infrastructure, and programs supported by the RSF. The stories will convey the achievement of milestones and provide web links for further information on the impact of RSF at UPEI, and to the program itself. Content will include staff profiles and features on programs and infrastructure supported by RSF. (September 2017 and January 2018)

3. Social media

UPEI will push content from objectives 1 and 2 through its social media channels. Between Facebook and Twitter, this reaches more than 15,000 alumni, community members, and friends. (On going)
