

PRESENTED BY THE STUDENTS OF ENVIRONMENTAL STUDIES 409B

What's the real cost of what we eat, wear, and use? That is the question that will be explored during this UPEI student-led symposium. The goal is to educate people on the effects of consumerism on their lives and ways to still live happily with fewer negative consequences to our environment.

Everyone is welcome!

JANUARY 12, 2012

11:30 am–1:30 pm
