² Supervisory Committee (consists of 5 graduate faculty one of whom must be from a department other than that in which the student is registered). A list of graduate faculty can be found in the graduate faculty folder on the G: drive. Graduate Faculty from other faculties can be found on the website under the UPEI Calendar.

³ In the PhD program students are required to complete courses totaling a minimum of 12 credit hours. (must include 4 substantive courses unless accompanied by request for waiver). All students are expected to complete VHM 801 (Veterinary Biostatistics) unless comparable training has been completed prior to entry into the program.

⁴ At as early a date as may be feasible in each case, and in all cases no later than the final semester of the residency requirement (i.e., the 6th semester after the Master's degree or the 8th semester after the honours baccalaureate), the student is required to take an examination to assess his or her knowledge in that branch of learning embracing the subject. The examination will ordinarily be in two parts, one written and one oral.
