

Residency / MVSc Program in Clinical Pathology

The Department of Pathology and Microbiology, Atlantic Veterinary College (AVC), University of Prince Edward Island, is offering a three-year residency/graduate program in clinical pathology. The first two years of the program will consist of residency training and completion of a non-thesis Master of Veterinary Science (MVSc) degree. If progress is deemed satisfactory, the resident will continue into a final year of training, consisting primarily of diagnostic service experience.

The primary emphasis of this program is to provide the resident with diagnostic experience over a three year period to qualify for certification by the American College of Veterinary Pathologists (ACVP), with the graduate training strengthening critical thinking and research skills. Participation in the undergraduate pathology teaching program is required and publication of MVSc research and case reports is strongly encouraged.

Applicants must possess a DVM or equivalent qualification. Previous clinical experience is desirable but not required. Obtaining admission to the AVC graduate program will be a requirement for the successful candidate. For further information on the Department of Pathology and Microbiology, please consult: <http://www.upei.ca/pathmicro/> For further information on applying for AVC graduate programs, please see <http://avc.upei.ca/graduatestudies>

The term of the appointment is August 28, 2023, to August 27, 2026. The salary is \$37,000 per annum. This position is subject to final budgetary approval.

Applications will be accepted until December 15, 2022, or until a suitable candidate is found.

To apply, please send a letter of intent, DVM transcripts, a curriculum vitae and names and contact information (including e-mail addresses) of 3 referees to:

Dr. Mark Fast, Professor and Chair
