

English Academic Preparation Instructors

Advice on being successful taking courses online

Make sure you read and follow the instructions carefully.

Regular attendance is crucial and you must be present for all live sessions.

REVIEW REREAD STUDY

Choose a spot in your home where you will always study / take class.

Do not be scared to ask questions.

All the work you do will contribute to your course grades so participate actively in all exercises (live or other).

Make sure you have everything you need - pens, paper, notebook ready before class.

Always use your UPEI email address to connect with instructors.

When you are in class, try not to have anyone else in the room with you so there are no distractions.

Each instructor will run his/ her course differently. It is your responsibility to adapt and make sure you do what each teacher expects.

Reserve a dedicated period of time every day (2 hours, 3 hours to study).
