

## 2023 JOHSC Membership

According to Section 25(6) of the *PEI Occupational Health and Safety Act*, membership of the committee shall be determined as follows:

- (a) one-half of the members shall be selected by the union representing the workers or, in the absence of a union, by the workers that the members represent;
- (b) one-half of the members shall be selected by the employer.

The UPEI JOHSC will consist of 12 members: six worker members and six employer members.

The Committee must have two co-chairs, one employer, and one union. The Vice-President Administration and Finance (VPAF) will appoint the employer representative. The union representatives will nominate the union chair.

Each committee member must submit a name of an alternate to fill in for them when they are not available to attend a meeting. The replacement will have to be sanctioned by the union group that they represent. The JOHSC alternate will receive the same training as the JOHSC committee members.
