

UNIVERSITY OF PRINCE EDWARD ISLAND
RESEARCH SUPPORT FUND – Research Security
2023-24 PERFORMANCE TARGETS

With increased Research Security funding, UPEI is now required to initiate the implementation of the National Security Guidelines for Research Partnerships. The research security funding will help to build capacity within UPEI to identify, assess and mitigate the potential risks to research security.

2023-2024 Research Security Allocation - \$41				
Project title	Output (investment of research security funds)	Performance objective	Performance indicator	Target outcome
Implementation of the National Security Guidelines for Research Partnerships	\$41 invested in hiring research security staff (facilitators, officers, etc.) This is in addition to funds from the RSF Management and Administration objectives	Assist in coordinating research security across the institution	Aid in identifying and mitigating research security risks	Identify and mitigate risks to research security (e.g. physical, cyber, partnerships, intellectual property, people)
