

Approved Minutes of the Eighth Meeting of Senate
Friday, April 11, 2025
3:00 – 5:00pm
Alumni Hall and via Zoom

Present: A. Braithwaite, A. MacKenzie, A. Trowbridge, A. Weenie, B. Linkletter, P. Drake, D. Griffon, D. Moses, G. Jiang, H. Wang, J. McClure, J. Sentance, K. Gottschall-Pass, K. Mears, M. Arfken, M. v. Eccher, M. Sweeney-Nixon, M. A. McMahon, N. Etkin, N. Mannholland, P. Bernard, P. Foley, P. Smith, R. Gauthier, R. Raiswell, S. Fitzpatrick, S. Myers, S. Hamilton, S. Kresta, T. Mady, W. Rodgers, W. Whelan, Y. Rashchupkina.

Regrets: A. Hsiao, A. MacLaren, B. Waterman, C. Adeyanju, F. Sadat, G. Naterer, J. McIntyre, M. Buote, M. Clapson, M. Turnbull, N. Clark, N. R. Agunbiade, P. J. Augustine, R. Dennis, R. McPhee, S. Connolly, T. Judson, W. Montelpare.

Secretariat: P. Robichaud, K. Porter, W. Anderson

OPEN SESSION

1. **Call to Order, Welcome, Land Acknowledgement and Opening Remarks from Chair and Vice-Chair**
W. Rodgers called the meeting to order at 3:03 pm and acknowledged the land.

2. **Approval of Agenda**
The Chair noted that item 9 of the draft agenda will not proceed as Dr. Naterer is unavailable due to unforeseeable circumstances.

MOTION: (P. Drake/ M. A. McMahon) that the agenda be approved as amended. CARRIED.

3. **Approval of Minutes**
a. **March 14, 2025, Open Minutes**
MOTION: (M. Sweeney-Nixon/J. Sentance) That Senate approve the minutes of the open session of Senate of March 14, 2025, as presented. CARRIED.

4. **Business Arising from Minutes**
No business arising was raised.

5. **Senior Administration Reports**
a. **President's Report**

The University has engaged students to canvass their needs and identify innovations in the delivery of services. A survey has been conducted with results to be known soon. As part of ongoing efforts to connect with students, the University held a student mixer with members of the Board of Governors and Senior managers of the University.

W. Rodgers spoke to the incident at the AVC regarding the display of artwork. She recognized that this is an important issue of academic freedom that requires immediate action. The University has extended an apology to the artist and offered an alternate opportunity to share their art with the University Community, both of which were accepted.

Senate was informed that the Government of PEI tabled the budget for 2025 – 2026 in the House the day before. Following the presentation of the budget, the Ministry is to provide details as to the funding to the University, which have not yet been received. The University remains dedicated to the recovery of revenue lost from declining international student enrolment, with a focus on the

retention of enrolled students. All things considered, UPEI is doing well compared to other universities, but we must continue to seek means to generate sustainable revenue.

Work continues to implement the Action Plan not only to live up to our commitments before government, but to ensure a successful transition to a better community.

Continuing professional development and asking them to continue. UPEI is doing very well compared to other universities.

W. Rodgers reminds Senate that a joint Board and Senate Equity, Diversity and Inclusion session will soon be arranged and noted a Governance training session with Cheryl Foy coming up in May.

b. Vice-President Academic and Research Report

N. Etkin, Dean of Science, acting on behalf of G. Naterer, noted the President's strong response to the incident related to the art exhibition at the AVC.

From a long list of successes to be celebrated at UPEI, N. Etkin highlighted two of note: the new Cleantech program and the UPEI Panthers bringing home a gold medal.

c. Vice-President People and Culture Report

In S. Connolly's absence, W. Rodgers delivered a report. The implementation of the Action Plan continues as we now move to the Audit of years 0 and 1. A progress report is in development and will be made available to everyone.

With the Board's approval, Employee Benefit Rates have been adjusted and will be reflected in the first pay in the month of May along with payroll adjustments resulting from actuarial calculations as of April 30.

The development of policies to replace the Fair Treatment Policy is going well, with members of the Committee bringing forth innovative approaches. The essence of the policy is now written, with some time now devoted to drafting procedures.

Jessica Field is starting to meet with campus leaders, teams and directors to share faculty and department specific employee engagement results.

EDI education is being conducted with all campus supervisors on humble learning and active listening.

The SVPRO is collaborating with the Student Union Student Wellness Coordinator at student events on consent and boundaries. SVPRO is also offering training sessions with all campus supervisors on receiving disclosures and supporting survivors of sexual violence.

6. Question Period

a. Questions and answers received from Placemats – no questions from the last meeting.

b. Questions Received in Advance – no questions received in advance.

c. Questions Received from the Floor

Q: Will UPEI be taking advantage of the federal election to lobby governments to change their policy regarding international students? **A:** W. Rodgers indicates that University Presidents are taking this up through Universities Canada and directly in talks with elected officials.

- Q:** UBC opened registration in January to US students. Will UPEI do the same? **A:** UPEI will look into it.
- Q:** Will the panel discussion with C. Griffin be made available remotely? **A:** Yes, we will see to it that there is remote access.
- Q:** Is the funding received for EDI initiatives perpetual? **A:** The funding was initially a restricted grant and has now been rolled into our base funding.
- Q:** Who are the auditors of the Action Plan. **A:** Deloitte.

7. Senate Standing Committee Reports

a. Academic Planning and Curriculum Committee – G. Naterer

i. *Seventh Curriculum Report*

N. Etkin presented motions 1 to 96 as described in the documentation provided to Senate in advance of the meeting and moved them in blocks along Faculty lines.

MOTION: (N. Etkin/S. Myers) That Senate motions 1 to 32 be approved. CARRIED

MOTION: (N. Etkin/R. Gauthier) That Senate motions 33 to 37 be approved. CARRIED

MOTION: (N. Etkin/A. Weenie) That Senate motions 38 to 42 be approved. CARRIED

MOTION: (N. Etkin/P. Drake) That Senate motions 43 to 62 be approved. CARRIED

MOTION: (N. Etkin/K. Gottschall-Pass) That Senate motions 63 to 94 be approved. CARRIED

MOTION: (N. Etkin/P. Bernard) That Senate motions 95 and 96 be approved. CARRIED

ii. *Scheduling Procedures – For Information*

Following the approval of the Scheduling Policy, procedures have been developed and are shared with Senate for information and to receive input.

Concerns are raised as to the scheduling of laboratories. The scheduling of classes on Friday afternoon also raises questions, as much service to the institution takes place at that time because it is generally free of classes. It was indicated that Friday afternoon schedules were added in response to significant demand to expand the teaching schedule and offer more options and in accordance with established practice as there are several classes regularly offered at that time. Noting that there is debate on the issues, the Chair noted the need for further discussion and for the topic to come back to Senate. Senators are to review the two documents and forward any concerns to the attention of Senate.

b. Senate Steering and Nominating Committee – W. Rodgers

i. *Committee Report*

As Chair of SSNC, President Rodgers noted the SSNC Report was provided for information and invited Senators to submit nominations for the vacancies.

ii. Senate and Senate Committee Vacancies

1. *Ad Hoc Senate Committee on Teaching Evaluation:*

Two undergraduate students; One graduate student needed

2. *Committee for Emerita/Emeritus/Emeriti Status:*

One faculty member – IKERAS

iii. Senate and Senate Committee Appointments

1. *Senate Committee on the Enhancement of Teaching:*

As a result of elections to fill three faculty seats on the Committee on the Enhancement of Teaching, the following members were elected:

- Terri Jackson from the Faculty of Education

- Kristina Kupferschmidt from the Faculty of Science (School of Mathematics and Computer Science)
- Stephanie Shaw from the Faculty of Sustainable Design Engineering

2. Ad Hoc Senate Committee on Teaching Evaluation:

A new member was appointed by the UPEI Faculty Association to the Ad Hoc Senate Committee on Teaching Evaluation,

- Emilia Bourassi from the AVC.

8. Board Report to Senate – W.Montelpare/W. Waterman

The two Senator members of the Board being absent, the report is carried over to the next meeting. As there has not been a report for a few meetings, a written report will be presented at the next meeting.

9. Creation of Ad Hoc Committee

The item is deferred in light of the absence of the VPAR.

10. Second Consultation with Senate on UPEI Draft Strategic Plan Framework Development – Tanya Chapman, The Chapman Group (Facilitator)

As the University progresses toward the establishment of a new Strategic Plan, T. Chapman of the Chapman Group has been invited to facilitate a discussion to seek input from Senate. Through a variety of venues, there has been much consultation of the University Community. The Senate is asked to review what has been heard so far and provide additional feedback in response to two framing questions: what resonates with you? What's missing?

The vision coming out of consultation so far is "Connected to the Island and the world, we empower people to explore, grow, and shape the future with bold vision and impact.

Comments received:

- Consider words such as *potential*, *nurture* and *life-long learning*.
- Some indicated that some words from the former vision are missing and should be considered
- The notion of our outstanding programs and education for students to take to the world is missing.
- There is no mention on teaching, which is an essential value of the institution.

As per the values, the following comments were received:

- Support for *integrity* and *equity*, but unsure about *innovation*.
- The expression *People first* do not speak to others with which we share the planet. *Community first* might be better.
- The values are in line with those of former plans, but academic freedom is missing.
- *Individuality* can speak to personal accountability or a self-centered approach, when we should look to institutional or collective responsibility.
- Striving for excellence should be retained. It should be a standard for us.

On priorities, comments received were:

- Should we commit to everyone thriving or rather to provide the opportunity to thrive?
- Uncertainty about the meaning of *Growth*. Does it mean *Renewal*?
- Telling our unique story is crucial.
- Need for some wording that states that while we are building, we are keeping the good elements we have.

- It's important that we commit to doing what we're already started before taking on more.
- Uncertainty as to the meaning of *Focal sustainability* and concern that it won't be understood.
- We are missing a focus on education of the future, which was in previous plans.
- The solutions to improve sustainability feel technical. We need to be more inclusive.
- Knowledge should be the focal point.

11. Annual Reports – For Information

Senate received the report from the Senate Library Committee and the Committee for Emerita/Emeritus/Emeriti Status as circulated to Senators prior to the meeting.

12. Shout Outs

M. Sweeney-Nixon – shoutout to our IT Team specifically David Ross who dropped everything to help develop a form for grad student stipends.

P. Smith – shoutout to the 20 Islanders who received a letter of admission to the Faculty of Medicine.

A Braithwaite – shoutout to Christopher Griffin for reminding us of what we stand for.

H. Wang – shoutout: Black Islander History available.

D. Griffon – Shoutout to AVC for receiving a 7-year accreditation, which is the longest possible.

13. Motion to Move to a Closed Agenda

MOTION: (M. A. McMahon/N. Etkin) that Senate move to a closed session. CARRIED

14. Adjournment

MOTION: (P. Drake/H. Wang) that the Senate meeting be adjourned.

CALENDAR & CURRICULUM CHANGE

Motion # 1

Revision is for a: Pre-requisite Addition/Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **Economics**

MOTION: To modify the prerequisite for Economics 2120 as follows

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>2120 REGIONAL ECONOMICS</p> <p>This course analyzes the problems of regional economic development in terms of factors affecting the location of an economic activity, land use, and migration. Regional disparities and the strategies of the Government of Canada and the provincial governments to reduce them from both historical and contemporary perspectives are also discussed.</p> <p>PREREQUISITE: Economics 1010 or 1020 or permission of the instructor</p> <p>Three hours a week</p>	<p>2120 REGIONAL ECONOMICS</p> <p>This course analyzes the problems of regional economic development in terms of factors affecting the location of an economic activity, land use, and migration. Regional disparities and the strategies of the Government of Canada and the provincial governments to reduce them from both historical and contemporary perspectives are also discussed.</p> <p>PREREQUISITE: Economics 1010 or 1020 or permission of the instructor <u>Second Year Standing</u></p> <p>Three hours a week</p>

Rationale for Change: It has been judged that the existing prerequisites are not necessary and dropping them will make this course more accessible to students with an interest in public policy who are not majoring in Economics or Business.

Effective Term: FALL 2025

Implications for Other Programs: Students from other programs have access to an additional elective.

Impact on Students Currently Enrolled: Access to an additional elective.

Authorization

Date:

Departmental Approval: Jason Stevens	February 13, 2025
Faculty/School Approval: Arts Curriculum Committee	March 3, 2025
Faculty Dean's Approval: Sharon Myers	March 3, 2025
Grad. Studies Dean's Approval: n/a	n/a
Registrar's Office Approval: Darcy McCardle	March 11, 2025

Form Version: September 2024

CALENDAR & CURRICULUM CHANGE

Motion # 2

Revision is for a: Pre-requisite Addition/Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **Economics**

MOTION: To modify the pre-requisite for Economics 3070 as follows:

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3070 MATHEMATICAL ECONOMICS</p> <p>This is an introduction to the use of mathematics in theoretical economic analysis. Topics to be considered include utility maximization, efficient production, price and income determination, the adjustment to and stability of equilibrium, inflation, and the impact of government spending and taxation programs.</p> <p>PREREQUISITE: Economics 1010 and 1020, Mathematics 1110 and 1120. Non-economic majors without Economics 1010-1020 but possessing a strong background in mathematics may be admitted with the instructor's permission</p> <p>Three hours a week</p>	<p>3070 MATHEMATICAL ECONOMICS</p> <p>This is an introduction to the use of mathematics in theoretical economic analysis. Topics to be considered include utility maximization, efficient production, price and income determination, the adjustment to and stability of equilibrium, inflation, and the impact of government spending and taxation programs.</p> <p>PREREQUISITE: Economics 1010 and 1020, Mathematics 1110 and 1120 1910. Non-economic majors without Economics 1010-1020 but possessing a strong background in mathematics may be admitted with the instructor's permission</p> <p>Three hours a week</p>

Rationale for Change: Math 1910 was adopted as the calculus requirement for the major in Economics (replacing 1120) several years ago. It was an oversight that this proposed change did not happen at the same time.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: Will make it easier to take this course. Without this change, economics majors would need to request pre-requisite waivers before registering.

Authorization

Date:

Departmental Approval: Jason Stevens	February 13, 2025

Form Version: September 2024

CALENDAR & CURRICULUM CHANGE

Motion # 3

Revision is for a: Course Description Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **Economics**

MOTION: To Change the calendar entry for Economics 3610 as follows

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3610 INTRODUCTION TO GAME THEORY The course consists of an introduction to game theory with an emphasis on economics applications. As such, the course will first present an introduction to the basic ideas and concepts underlying Game Theory. It will then introduce the concepts of strategic decisions in a static setting through games including dominant strategies, Nash equilibrium and mixed strategies. The course will also deal with the analysis of strategic decisions in a dynamic setting through sequential games, backward induction, and repeated games. PREREQUISITES: Economics 2030 and a course in statistics (Statistics 1210, 1920, or Business 2510) or permission of the instructors</p>	<p>3610 <u>2610</u> INTRODUCTION TO GAME THEORY The course consists of an introduction to <u>applied</u> game theory with an emphasis on economics <u>and public policy</u> applications. As such, the course will first present an introduction to the basic ideas and concepts underlying Game Theory. It will then introduce the concepts of strategic decisions in a static <u>and dynamic</u> settings through games including dominant strategies, Nash equilibrium and mixed strategies. The course will also deal with the analysis of strategic decisions in a dynamic setting through sequential games, backward induction, and repeated games. PREREQUISITES: Economics 2030 and a course in statistics (Statistics 1210, 1920, or Business 2510) or permission of the instructors <u>Second year standing</u></p>

Rationale for Change: This course has not been offered in several years due to low demand; likely due to its (as currently formulated) highly technical nature which made it inaccessible to some students who may have been otherwise interested in the subject. These changes reflect its re-introduction as an applied second year course which may be of greater interest to students majoring in economics as well as other programs.

Effective Term: FALL 2025

Implications for Other Programs: The removal of the pre-requisites allows interested students from other programs to take this course as an elective.

Impact on Students Currently Enrolled: Increases the number of electives offered by the economics department.

CALENDAR & CURRICULUM CHANGE

Motion # 4

Revision is for a: Pre-requisite Addition/Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **DSJS**

MOTION: That the course description for DSJS 4060 Queer Theory be approved as proposed

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>4060 QUEER THEORY This course introduces students to the body of academic thought known as “queer theory” and to the ways it challenges assumptions about sexuality, gender, and other identity categories. It focuses on queer theory’s historical foundations, genealogies, and contributions, as well as on contemporary uses of and debates in the field. PREREQUISITES: Third Year standing or above and at least 3 other DSJS courses, or permission of the instructor.</p>	<p>4060 QUEER THEORY This course introduces students to the body of academic thought known as “queer theory” and to the ways it challenges assumptions about sexuality, gender, and other identity categories. It focuses on queer theory’s historical foundations, genealogies, and contributions, as well as on contemporary uses of and debates in the field. PREREQUISITES: Third Year standing or above, <u>and at least 3 other DSJS courses</u>, or permission of the instructor.</p>

Rationale for Change: To better reflect the students taking this course and remove a barrier to those who haven’t done the 3 other DSJS courses but want to take this course

NEW COURSE PROPOSAL

Motion # 8

Faculty/School: **Arts**

Department/Program(s): **Political Science**

MOTION: That POLS 2360 Religion and Politics be created

Course Number and Title	POLS 2360, "Religion and Politics"
Description	This course examines the intersection between religion and politics, primarily from the perspective of the western intellectual tradition. With the help of both classical and contemporary texts, students will explore such issues as the separation between church and state, the role of religious argument and authority in public reason, the difference between a secular society and a secularist society, and the basis and implications of the freedom of religion. Three credit hours
Cross-Listing	RS 2360 proposed
Prerequisite/Co-Requisite	NA
Credit(s)	3
Notation	

This is: An Elective Course

Grade Mode: Numeric (Standard)

Anticipated Enrolment: 50

If there is an enrolment limit, please explain.

Is there an Enrolment Cap: No

Rationale for New Course: This course is already taught in Religious Studies; however, it has not been cross-listed. It is a natural collaboration. It will primarily be taught by RS faculty.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: It offers another course for PS students without the allocation of new resources.

Resources Required: N/A.

In offering this course will UPEI require facilities or staff at other institutions: No

If yes, please explain.

NEW COURSE PROPOSAL**Motion # 8**

<i>Authorization</i>	<i>Date:</i>
Departmental Approval: Don Desserud	February 4, 2025
Faculty/School Approval: Arts Curriculum Committee	Mar 3 2025.
Faculty Dean's Approval: Sharon Myers	March 3 2025
Graduate Studies Dean's Approval: n/a	n/a.
Registrar's Office Approval: Darcy McCardle	March 11, 2025.

NEW COURSE PROPOSAL

Motion # 8

- Dimensions of Religion and Human Rights - David Morrison (no. 4)
(Reference code: C 1-147: VHS)
- Religion and culture - David Morrison with Bishop G. Russell Hatton (no. 6)
(Reference code: C 1-149: VHS)
- Religion and culture - David Morrison with Bishop G. Russell Hatton (no. 7)
(Reference code: C 1-150: VHS)
- The Issues - A Journalist's view - David Morrison with Jack Kapica (no. 21)
(Reference code: C 1-160: SVHS)
- Changing issues in religion - David Morrison with Lois Wilson (no. 22) (Reference code: C 1-161: VHS)
- **Library Administrative/Research Support:**
 - Liaison Librarians provide reference and instruction support to students and faculty as needed. They monitor publication lists for new titles in the subject area and purchase appropriate titles as existing budgetary resources permit.
 - Political Science Librarian provides research assistance to both students and faculty as needed.

New resources needed to support this proposal:

- **Collections:**
 - It is felt that the Library has sufficient monographs and subscriptions/databases currently.

Summary of additional budget allocation required:

- First year startup: \$ ____ in first fiscal year the course/program is offered
- Additional startup years: \$ ____ in second year, \$ ____ in third year....
- Annual: \$ ____ in addition to the startup figure(s) above starting in the fiscal year AFTER the year the course is first offered
 - Per-year percentage increase in annual: ____

Note that if future budget constraints require the Library to cancel interdisciplinary packages listed above, there may be a loss of resources needed for this course.

Date Received by Liaison/Collections Librarian	February 19, 2025.
Name of Librarian to be Contacted with Questions	Juanita Rossiter
Approved by University Librarian or Designate	Donald Moses
Date Approved by UL or Designate	February 24, 2025

CALENDAR & CURRICULUM CHANGE

Motion # 9

Revision is for a: Cross-listing Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **Political Science**

MOTION: That POLS 2360 be cross listed with RS 2360

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>POLS [2360] Religion and Politics This course examines the intersection between religion and politics, primarily from the perspective of the western intellectual tradition. Rationale for Change: A natural cross-list, as course involves politics and its study at its core.

Effective Term: FALL 2025

Implications for Other Programs: Will increase options for Political Science students

Impact on Students Currently Enrolled: N/A

Authorization

Date:

Departmental Approval: Don Desserud	February 4, 2025
Faculty/School Approval: Arts curriculum Committee	March 3, 2025
Faculty Dean's Approval: Sharon Myers	March 3, 2025
Grad. Studies Dean's Approval: n/a	n/a
Registrar's Office Approval: Darcy McCardle	March 11, 2025

CALENDAR & CURRICULUM CHANGE

Motion # 10

Revision is for a: Calendar Entry Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **Political Science**

MOTION: That the requirement for a Major in Political Science be amended to allow students to take EITHER POLS 4220 OR POLS 4510 to complete the major requirements

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>To obtain a major in Political Science, students must complete a minimum of 42 semester hours (14 courses) in Political Science, and must include the following four core courses: NOTE: As per Academic Regulation #1 h), all undergraduate degree programs require successful completion of IKE-1040, one of UPEI-1010, 1020 or 1030, and a Writing Intensive Course.</p> <p>2530 Introduction to Political Theory, 2620 Canadian Politics, 2820 International Politics, and 4510 Comparative Politics; one further course from each of the following fields: Canadian Politics, Comparative Politics, and International Politics; and an additional seven electives in the discipline</p>	<p>To obtain a major in Political Science, students must complete a minimum of 42 semester hours (14 courses) in Political Science, <u>and which</u> must include the following four core courses: [NOTE: As per Academic Regulation #1 h), all undergraduate degree programs require successful completion of IKE-1040, one of UPEI-1010, 1020 or 1030, and a Writing Intensive Course] : 2530 Introduction to Political Theory, 2620 Canadian Politics, 2820 International Politics, <u>and either 4220 Comparative Ethnic Nationalism or 4510 Comparative Politics</u>; one further course from each of the following fields: Canadian Politics, Comparative Politics, and International Politics; and an additional seven electives in the discipline.</p>

Rationale for Change: This fulfills another recommendation of QA Review. POLS 4510 is a required course is that it is offered every second year in rotation with POLS 4220, both now taught by Dr. Srebrnik. This change ensures that students will always have one of these as an option to take prior to graduating.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: Will benefit students who have yet to complete POLS 4510

Authorization

Date:

Departmental Approval: Don Desserud	March 26, 2024

Registrar's Office Approval: Darcy McCardle	March 11, 2025

CALENDAR & CURRICULUM CHANGE

Motion # 11

Revision is for a: Calendar Entry Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **PHILOSOPHY**

MOTION: To have the proposed changes to the **ADMISSION** to an **HONOURS** in Philosophy be approved.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>Honours Program – Admission: To be admitted to the honours program, a student must submit a letter of application to the chair of the department. The letter must include a brief proposal of the intended research the name of the student's potential supervisor, a note from the potential supervisor confirming prior consultation, and a copy of the student's updated transcripts. Applicants must have registered in, or have completed, the major program in philosophy. Normally, students should submit their applications during their fifth semester. The department, acting as a committee, will determine who is admitted based on the following considerations: The student has an average of at least 75% in all Philosophy courses The student has an overall average of at least 70% in all academic courses The student has shown the ability of, or has the potential for, completing independent philosophical research Availability of suitable supervisors Since the demand for the program may exceed the resources available, meeting the minimum entry requirements does not guarantee admission</p>	<p>Honours Program – Admission: To be admitted to the honours program, a student must submit a letter of application to the chair of the department. The letter must include a brief proposal of the intended research the name of the student's potential supervisor, a note from the potential supervisor confirming prior consultation, and a copy of the student's updated transcripts. Applicants must have registered in, or have completed, the major program in philosophy. Normally, students should submit their applications during their fifth semester. The department, acting as a committee, will determine who is admitted based on the following considerations: The student has an average of at least 75% <u>80%</u> in all Philosophy courses The student has an overall average of at least 70% <u>75%</u> in all academic courses The student has shown the ability of, or has the potential for, completing independent philosophical research Availability of suitable supervisors Since the demand for the program may exceed the resources available, meeting the minimum entry requirements does not guarantee admission</p>

Rationale for Change: Increasing the grade percentage makes the philosophy Honours requirements consistent both with current practice and with other Honours programs in Arts.

Effective Term: Fall 2025

Implications for Other Programs: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 11

Impact on Students Currently Enrolled: No currently registered student has an average below 80% in philosophy or below 75% in all academic courses.

Authorization**Date:**

Departmental Approval: Malcolm Murray	February 12, 2025
Faculty/School Approval: Arts Curriculum Committee	March 3, 2025

CALENDAR & CURRICULUM CHANGE

Motion # 13

Revision is for a: Calendar Entry Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **PHILOSOPHY**

MOTION: To have the proposed changes to the requirements for a MAJOR in Philosophy be approved.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p><u>Major Program – Requirements</u></p> <p>To complete a Major in Philosophy, a student must satisfy the following requirements:</p> <ul style="list-style-type: none"> • At least 126 semester hours of academic credit (42 courses) • At least 42 semester hours of academic credit (14 courses) in Philosophy, as listed below: • At least 6 Philosophy courses (18 semester hours) must be at the 3000 or 4000 level. • Required courses: • PHIL 2510 (Formal Logic) • From Group B: PHIL 3030 (Ethical Theory) • From Group C: PHIL 2220 (Political Philosophy) • From Group D: PHIL 3020 (Environmental Philosophy) • From Group E: PHIL 2620 (Plato and Aristotle), • From Group F: PHIL 3540 (Philosophy of Mind) OR PHIL 3850 (The Philosophy of Kant) • 6 additional Philosophy courses – one course from each of the six areas A to F (as listed below) • 2 Additional Philosophy courses from any of the six areas A to F. <p>Recommended courses for students intending to pursue graduate studies in Philosophy:</p> <ul style="list-style-type: none"> • PHIL 2210 (Social Philosophy); • PHIL 3730 (Philosophy of Language); • PHIL 3840 (Rationalists and Empiricists); 	<p><u>Major Program – Requirements</u></p> <p>To complete a Major in Philosophy, a student must satisfy the following requirements:</p> <ul style="list-style-type: none"> • At least 126 <u>120</u> semester hours of academic credit (42 <u>40</u> courses) • At least 42 semester hours of academic credit (14 courses) in Philosophy , as listed below: <u>satisfying the following criteria:</u> • At least 6 Philosophy courses (18 semester hours) must be at the 3000 or 4000 level. <p><u>Required courses:</u></p> <ul style="list-style-type: none"> ○ PHIL 2510 (Formal Logic) ○ From Group B: PHIL 3030 (Ethical Theory) ○ From Group C: PHIL 2220 (Political Philosophy) ○ From Group D: PHIL 3020 (Environmental Philosophy) ○ From Group E: PHIL 2620 (Plato and Aristotle), ○ From Group F: PHIL 3540 (Philosophy of Mind) OR PHIL 3850 (The Philosophy of Kant) • <u>Plus 6</u> additional Philosophy courses – one course from each of the six areas A to F (as listed below) • <u>At least 6 Philosophy courses (18 semester hours) must be at the 3000 or 4000 level.</u> • 2 Additional Philosophy courses from any of the six areas A to F. <p>Recommended courses for students intending to pursue graduate studies in Philosophy:</p>

CALENDAR & CURRICULUM CHANGE

Motion # 13

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<ul style="list-style-type: none"> PHIL 3540 (Philosophy of Mind) or Phil 3850 (The Philosophy of Kant) – if not taken as a required course. <p>Of the remaining four philosophy courses, at least three courses must be completed at the 3000 or 4000 level.</p>	<ul style="list-style-type: none"> PHIL 2210 (Social Philosophy); PHIL 3730 (Philosophy of Language); PHIL 3840 (Rationalists and Empiricists); PHIL 3540 (Philosophy of Mind) or Phil 3850 (The Philosophy of Kant) – if not taken as a required course. <p>Of the remaining four philosophy courses, at least three courses must be completed at the 3000 or 4000 level.</p>

Rationale for Change: Four changes are being made here. (a) The current number of courses a Philosophy Major is required to take to get their degree is out of synch with UPEI practice. Reducing the number to UPEI's standard is being requested. (b) The second change is for purposes of clarity. Students have six required courses, listed. These need not be identified with the A to F grouping. We have six more courses students need to take, but these may be selected from a range of options, listed as the A to F clusters. (c) the added two extra courses from any of the areas A to F is too limiting, since we also offer rotating Special Topic courses that are also be of use to Majors. Hence, we would like this "requirement" to be deleted. The changes identified here as (a), (b), and (c) permits more flexibility for students majoring in Philosophy and is more in line with the requirements of other Major programs in Arts. (d) A fourth change requested is to delete the section concerning "recommended courses," because that section is idle. Those who wish to pursue graduate studies are encouraged to become Honours students.

Effective Term: Fall 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: A decrease in total courses required, and with more flexibility.

CALENDAR & CURRICULUM CHANGE

Motion # 15

Revision is for a: Calendar Entry Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **PHILOSOPHY**

MOTION: To have the proposed changes to list of courses CATEGORIZED INTO AREAS in Philosophy be approved.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p><u>List of courses categorized into areas:</u></p> <p><u>Group A: Introductory Courses</u></p> <ul style="list-style-type: none"> • 1010 – Introduction to Philosophy • 1020 – Introduction to Ethics and Social Philosophy • 1050 – Technology, Values, and Science • 1110 – Critical Thinking <p><u>Group B: Ethics</u></p> <ul style="list-style-type: none"> • 2020 – Contemporary Moral Issues • 2040 – Bio-Medical Ethics • 2050 – Business Ethics • 2060 – Animal Ethics • 3220 – Religious Ethics East and West • 3710 – Community-Based Ethical Inquiry I • 4030 – Metaethics <p><u>Group C: Political Philosophy</u></p> <ul style="list-style-type: none"> • 2070 – Philosophies of War and Peace • 2210 – Social Philosophy • 2220 – Political Philosophy • 3510 – Philosophy of Law • 3830 – Radical Philosophy • 4270 – Theories of Justice <p><u>Group D: Philosophy Of Nature and Metaphysics</u></p> <ul style="list-style-type: none"> • 2030 – Environmental Philosophy • 2350 – Skepticism, Agnosticism, Atheism, Belief • 3010 – Philosophy of Science • 3620 – Philosophy of Religion • 3630 – Philosophy of Biology <p><u>Group E: History of Philosophy</u></p> <ul style="list-style-type: none"> • 2110 – Origins of Western Philosophy • 2130 – Existentialism 	<p><u>List of courses categorized into areas:</u></p> <p><u>Group A: Introductory Courses</u></p> <ul style="list-style-type: none"> • 1010 – Introduction to Philosophy • 1020 – Introduction to Ethics and Social Philosophy • 1050 – Technology, Values, and Science • 1110 – Critical Thinking <p><u>Group B: Ethics</u></p> <ul style="list-style-type: none"> • 2020 – Contemporary Moral Issues • 2040 – Bio-Medical Ethics • 2050 – Business Ethics • 2060 – Animal Ethics • 3220 – Religious Ethics East and West • 3710 – Community-Based Ethical Inquiry ↓ • 4030 – Metaethics <p><u>Group C: Political Philosophy</u></p> <ul style="list-style-type: none"> • 2070 – Philosophies of War and Peace • 2210 – Social Philosophy • 2220 – Political Philosophy • 3510 – Philosophy of Law • 3830 – Radical Philosophy • 4270 – Theories of Justice <p><u>Group D: Philosophy Of Nature and Metaphysics</u></p> <ul style="list-style-type: none"> • 2030 <u>3020</u> – Environmental Philosophy • 2350 – Skepticism, Agnosticism, Atheism, Belief • <u>2710</u> – Ethics of Climate Change • 3010 – Philosophy of Science • 3620 – Philosophy of Religion • 3630 – Philosophy of Biology <p><u>Group E: History of Philosophy</u></p> <ul style="list-style-type: none"> • 2110 – Origins of Western Philosophy • 2130 – Existentialism

CALENDAR & CURRICULUM CHANGE

Motion # 15

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<ul style="list-style-type: none"> • 2620 – Plato and Aristotle • 2840 – Introduction to Medieval Theology and Philosophy • 3030 – History of Ethical Theory • 3840 – Rationalist and Empiricists • 3850 – The Philosophy of Kant • 4220 – 20th Century British and American Philosophy • 4280 – 20th Century French and German Philosophy <p><u>Group F: Philosophy Of Human Nature</u></p> <ul style="list-style-type: none"> • 2140 – Philosophy of Humour • 2420 – Philosophies of Love And Sexuality • 3530 – Philosophies of Communication • 3540 – Philosophy of Mind • 3610 – Philosophy and Literature • 3730 – Philosophy of Language 	<ul style="list-style-type: none"> • 2620 – Plato and Aristotle • 2840 – Introduction to Medieval Theology and Philosophy • 3030 – History of Ethical Theory • 3840 – Rationalist and Empiricists • 3850 – The Philosophy of Kant • 4220 – 20th Century British and American Philosophy • 4280 – 20th Century French and German Philosophy <p><u>Group F: Philosophy Of Human Nature</u></p> <ul style="list-style-type: none"> • 2140 – Philosophy of Humour • 2420 – Philosophies of Love And <u>and</u> Sexuality • <u>2510 – Formal Logic</u> • 3530 – Philosophies of Communication • 3540 – Philosophy of Mind • 3610 – Philosophy and Literature • 3730 – Philosophy of Language

Rationale for Change: These changes are simply corrections. (a) “3710 – Community-Based Ethical Inquiry I” made sense when we had “Community-Based Ethical Inquiry II.” We no longer have the second course, however. (b) Environmental Philosophy’s course number is Phil 3020, not Phil 2030. (c) The word “and” is not to be capitalized. (d) “Phil 2710: Ethics of Climate Change” was a new course that we introduced that failed to be incorporated into our course groupings. (e) “Phil 2510: Formal Logic” is a longstanding course that failed to be incorporated into our course groupings.

MOTION: To have the proposed changes to the calendar description of Phil 2060 be approved.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>2060 ANIMAL ETHICS</p> <p>This course introduces the recent paradigm shift from anthropocentric ethics to biocentric ethics. The main objectives of the course are 1) to develop understanding of the main arguments concerning the moral status of nonhuman animals; 2) to cover the full range of different ethical positions regarding animals and discuss their advantages and disadvantages; and 3) to identify ideologies associated with thinking about animals and develop a critique which liberates us from one-dimensional thinking about animals. Topics addressed include whether animals have minds, whether animals have rights analogous in some way to human rights, and how to balance the interests of animals with other environmental goods. Other topics include animals as food, animal research ethics, animals in entertainment, cloning, biotechnology, companion animals, and legal and moral issues associated with animal activism.</p>	<p>2060 ANIMAL ETHICS</p> <p>This course introduces the recent paradigm shift from anthropocentric ethics to biocentric ethics. <u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3710 COMMUNITY-BASED ETHICAL INQUIRY I</p> <p>This course will engage students in work placements and dialogue in ethical inquiry with community leaders in one of the following areas (set by the instructor at the start of the year): Agriculture and globalization; Poverty and illiteracy in PEI; World hunger and international aid; Environmental problems and issues of sustainability on PEI. Students will explore the nature of moral experience and ethical inquiry while gaining on-the-ground work experience, so that class discussions will be informed by first-hand understanding of the issues, as well as by recent and classic ethical texts. This course will be led by a faculty member in collaboration with recognized community leaders in the field.</p> <p>PREREQUISITE: Successful completion of a first or second year course in philosophy, or permission of the instructor.</p> <p>Seminar/field work: Averaged across the semester, 1.5 hours per week unpaid field placement in a relevant setting, supervised by a mentor.</p> <p>Three semester hours of credit</p>	<p>3710 COMMUNITY-BASED ETHICAL INQUIRY-4</p> <p>This course will engage students in work placements and dialogue in ethical inquiry with community leaders in one of the following areas (set by the instructor at the start of the year): Agriculture and globalization; Poverty and illiteracy in PEI; World hunger and international aid; Environmental problems and issues of sustainability on PEI. Students will explore the nature of moral experience and ethical inquiry while gaining on-the-ground work experience, so that class discussions will be informed by first-hand understanding of the issues, as well as by recent and classic ethical texts. This course will be led by a faculty member in collaboration with recognized community leaders in the field.</p> <p>PREREQUISITE: Successful completion of a first or second year <u>One</u> course in philosophy, or permission of the instructor.</p> <p>Seminar/field work: Averaged across the semester, 1.5 hours per week unpaid field placement in a relevant setting, supervised by a mentor.</p> <p>Three semester hours of credit</p>

Rationale for Change: Two changes are being requested here. (a) We no longer have a “Community-Based Ethical Inquiry II” course, so keeping the “I” in the title is idle. Hence delete the “I” from the title. (b) Saying, “One course in philosophy” will satisfy the more cumbersome phrasing (“Successful completion of a first or second year”) that we are asking to be deleted. Also, if someone has a third- or fourth-year philosophy course without having a first- or second-year course, that would be even better, whereas the current wording would disallow such students. Saying, “one course,” satisfies all contingencies. Moreover, it is consistent with practice and with other Arts course descriptions.

CALENDAR & CURRICULUM CHANGE

Motion # 24

Revision is for a: Course Description Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **PHILOSOPHY**

MOTION: To have the proposed changes to the calendar description of Phil 4900 be approved.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>4900 HONOURS THESIS</p> <p>In consultation with a supervisor, each student will be required to write a 7,000–9,000 word thesis, and defend it orally in front of a committee. The three-member committee will be comprised of the supervisor, a second reader from the Philosophy Department, and a third reader from either the Philosophy Department or another department at the University. Students must complete Philosophy 4800 before beginning Philosophy 4900.</p>	<p>4900 HONOURS THESIS</p> <p>In consultation with a supervisor, each student will be required to write a <u>7,000–9,000 word</u> thesis, and defend it orally in front of a committee. The three-member committee will be comprised of the supervisor, a second reader from the Philosophy Department, and a third reader from either the Philosophy Department or another department at the University. Students must complete Philosophy 4800 before beginning Philosophy 4900.</p>

Rationale for Change: A 7,000-9,000 word limit thesis is remarkably short. Never have our honours theses been that short. They have commonly been in the 15,000-20,000-word length. So, for consistency in practice and for consistency with other honours programs in Arts, we request the word-count limit to be increased.

Students seeking a BSc will also be required to complete a minimum of seven semester courses (21 semester hours) of course work in the Faculty of Science. Credit in each of the following courses is required: NOTE: As per Academic Regulation #1 h), all undergraduate degree programs require successful completion of IKE-1040, one of UPEI-1010, 1020 or 1030, and a Writing Intensive Course.</p> <ol style="list-style-type: none"> 1. Biology 1310 and 1320 2. Mathematics 1120 3. Chemistry 1110 and 1120 OR Physics 1210 and 1220 4. Two courses which have laboratory components at the 2000-level or above in one of Biology, Chemistry, Physics, or Foods and Nutrition. Both courses must be in the same discipline area. 	<p><i>Bachelor of Science in with a Major in Psychology</i></p> <p>Students pursuing a Bachelor of Science degree with a major in Psychology will complete the Psychology course requirements as described above for the Bachelor of Arts degree. Students seeking a BSc will also be required to complete a minimum of seven semester courses (21 semester hours) of course work in the Faculty of Science. Credit in each of the following courses is required: NOTE: As per Academic Regulation #1 h), all undergraduate degree programs require successful completion of IKE-1040, one of UPEI-1010, 1020 or 1030, and a Writing Intensive Course. 1. Biology 1310 and 1320 2. Mathematics 1120 <u>or Mathematics 1910</u> 3. Chemistry 1110 and 1120 OR Physics 1210 and 1220 4. Two courses which have laboratory components at the 2000-level or above in one of Biology, Chemistry, Physics, or Foods and Nutrition. Both courses must be in the same discipline area.</p>

Rationale for Change: Mathematics 1910 had been inadvertently removed from the calendar. Students cannot get credit for both courses in Mathematics, and 1910 is a required pre-requisite for some of the Math and Computer Science courses.

Effective Term: FALL 2025

Implications for Other Programs: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 25

Impact on Students Currently Enrolled: This removes an unnecessary pre-requisite for students who are taking or have taken 1910.

Authorization**Date:**

important. Students may be required to pay part or all of the expenses to produce the Honours Thesis. The Department of Psychology intends to provide some financial support for students, but the amount will depend on (a) the funding the Department receives, and (b) the number of students in the program.	expenses to produce the Honours Thesis. The Department of Psychology intends to provide some financial support for students, but the amount will depend on (a) the funding the Department receives, and (b) the number of students in the program.

Rationale for Change: The Honours Program is oversubscribed.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: The increase entrance requirements may incentivize students to work hard for high grades. Admission to the program depends on availability of a supervisor; grades are not the only criteria. The change is likely not to have impact on students enrolled.

CALENDAR & CURRICULUM CHANGE

Motion # 28

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>Students in the program are engaged full-time with the program throughout almost the entirety of the four years of study. The first semesters include five courses per semester; the workload for five graduate- level courses in a professional training program is much greater than that for five senior undergraduate courses. As is the case in other professional training programs such as medicine or veterinary medicine, students in the PsyD will not have time for significant employment outside the program. Students' initial practicum placements will take place in the UPEI Psychology Clinic. The program will place students for subsequent practica in sites across Prince Edward Island, unless students initiate an approved placement site outside of the province. For the pre-doctoral internship, students take part with students across North America in the competitive APPIC internship matching program (www.appic.org). Internship placements cannot be guaranteed. A limited number of 12-month internship placements will be available in Prince Edward Island, considerably fewer than there will be students in the program. Applicants are strongly encouraged to apply to internship sites outside the province.</p> <p>Continuation in the program requires successful completion of, and ethical and professional conduct in, courses, practicum placements, and internship.</p>	<p>Students in the program are engaged full-time with the program throughout almost the entirety of the four years of study. As is the case in other professional training programs such as medicine or veterinary medicine, students in the PsyD will not have time for significant employment outside the program. Students' initial practicum placements will take place in the UPEI Psychology Clinic. The program will place students for subsequent practica in sites across Prince Edward Island, unless students initiate an approved placement site outside of the province. For the pre-doctoral internship, students take part with students across North America in the competitive APPIC internship matching program (www.appic.org). Internship placements cannot be guaranteed. A limited number of 12-month internship placements will be available in Prince Edward Island, <u>considerably fewer than there will be students in the program.</u> Applicants are strongly encouraged to apply to internship sites outside the province. Continuation in the program requires successful completion of, and ethical and professional conduct in, courses, practicum placements, and internship. <u>Failure of any clinical practica will result in dismissal from the program</u></p>

Rationale for Change: Information regarding internship placements in PEI is outdated. Removed inaccurate statement to avoid any unrealistic expectations. Currently there is no indication of the outcome for failure of a practicum course. Failing a practicum placement only occurs after significant remediation and in very rare circumstances. A student who has failed a practicum will not be able to obtain an APPIC clinical internship later in their training, and therefore will be unlikely to complete the degree. This addition will establish non ambiguous outcomes for clinical practicum performance in the program.

Effective Term: FALL 2025

CALENDAR & CURRICULUM CHANGE

Motion # 28

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
In addition to these Island Studies elective courses, and in order to satisfy their elective requirements, students in each of the focus areas may take any of the compulsory courses in the other two focus areas. All compulsory and most elective courses in the course-based program except for IST 6040 and IST 6200 will be delivered online. Not all courses identified as electives within the course-based option will be provided via online delivery. Check with the Program Coordinator for details.	In addition to these Island Studies elective courses, and in order to satisfy their elective requirements, students in each of the focus areas may take any of the compulsory courses in the other two focus areas. All compulsory and most elective courses in the course-based program except for IST 6040 and IST 6200 will be delivered online. Not all courses identified as electives within the course-based option will be provided via online delivery. Check with the Program Coordinator for details.

Rationale for Change: To clarify language used in calendar entry and reflect current practice; to add a new elective, IST6280, which was approved previously.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 30

Revision is for a: Cross-listing Change

Faculty/School/Department: Arts

Department/Program(s)/Academic Regulations: **Religious Studies**

MOTION: To change Religious Studies 2360 as proposed:

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
2360 RELIGION AND POLITICS This course examines the intersection between religion and politics, primarily from the perspective of the western intellectual tradition. With the help of both classical and contemporary texts, students will explore such issues as the separation between church and state, the role of religious argument and authority in public reason, the difference between a secular society and a secularist society, and the basis and implications of the freedom of religion. Three credit hours	2360 RELIGION AND POLITICS This course examines the intersection between religion and politics, primarily from the perspective of the western intellectual tradition. With the help of both classical and contemporary texts, students will explore such issues as the separation between church and state, the role of religious argument and authority in public reason, the difference between a secular society and a secularist society, and the basis and implications of the freedom of religion. <u>Cross-listed with Political Science 2360.</u> Three credit hours

Rationale for Change: RELS 2360 has been taught in RELS for some time, and fits well with POLS. Cross listing will draw students from both departments. It is hoped that this will lead to increased enrollment .

Effective Term: FALL 2025

Implications for Other Programs: Will add course to Political Science offerings.

SUMMARY OF FACULTY OF EDUCATION

Motion #'s 33-37

Summary of Motions

Faculty of Education

#	Type of Motion	Motion
33.	Calendar Entry Change	That the application deadline for the BEd program be extended to October 1 st .
34.	Calendar Entry Change	That the application deadline for the BEd (français langue seconde) program be extended to October 1 st .
35.	Calendar Entry Change	To modify the admission requirements for the primary/elementary cohort of the BEd (français langue seconde) program as submitted
36.	Calendar Entry Change	That the course requirements and calendar entry for the BEd (français langue seconde) program be updated as submitted.
37.	New Calendar Entry	at the new regulations for the Bachelor of Education and Bachelor of Education (français langue seconde) programs be approved as proposed

CALENDAR & CURRICULUM CHANGE

Motion # 33

Revision is for a: **Calendar Entry Change**

Faculty/School/Department: **Education**

Department/Program(s)/Academic Regulations: **Bachelor of Education program**

MOTION: That the application deadline for the BEd program be extended to October 1st.

Reproduction of Current Calendar Entry	Proposed revision with changes underlined and deletions indicated clearly
<p>(iii) Application Process Applications for the Bachelor of Education Program open on June 1st of each year and will close on September 15th. Applicants are normally notified of admission decisions in late November.</p>	<p>(iii) Application Process Applications for the Bachelor of Education Program open on June 1st of each year and will close on September 15th. Applicants are normally notified of admission decisions in late November. <u>be accepted until the program has reached the full complement of students or the program begins. However, the Faculty will begin reviewing completed applications submitted on October 1st. Applicants are therefore encouraged to apply by October 1st to ensure full consideration for admission. Applicants who submit their application by October 1st would normally be notified of admission decisions by mid-December.</u> <u>Applications received after October 1st will only be considered if a seat becomes available before the program begins.</u></p>

Rationale for Change: Extending the application deadline for the BEd program reflects the Faculty's commitment to flexibility, efficiency, and program-specific needs.

Encouraging Early Applications: The change to an October 1st deadline provides more time for 4th year students who are completing registration around September 15 (add-drop dates) to apply to the BED program on time. Changing this date still allow for timely evaluation and feedback to early applicants, which will aid them with their planning.

Flexibility for Late Applications: Accepting applications until the program is full allows for flexibility in accommodating additional qualified candidates when possible. It also offers a pathway for late applicants to be considered for future admission cycles, ensuring opportunities for those who may not meet the initial suggested deadline.

Encouraging More Applications: There is currently a teacher shortage around the world. Creating more

CALENDAR & CURRICULUM CHANGE

Motion # 33

flexibility in admission deadlines aims to ensure filling all cohorts as much as possible given the need for new teachers in many jurisdictions. Allowing applications until the program is full creates opportunities for more candidates, increasing overall application numbers and diversifying the applicant pool.

Effective Term: SUMMER 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

Applicants are strongly encouraged to take French courses and Education 2130 (Introduction to Education) at UPEI (or equivalent at other universities) prior to beginning the BEd program. Additionally, courses in Fine Arts or Music will also be considered assets.</u></p>

Rationale for Change: There is a critical shortage of French teachers across Canada, with schools struggling to fill positions in French Immersion and French as a Second Language programs. Despite this pressing need, the Bachelor of Education (fls) program faces persistently low applicant rates. Many potential candidates are deterred by rigid admission requirements, including course prerequisites that inadvertently exclude individuals with strong linguistic, leadership, and cultural competencies but non-traditional academic backgrounds. Students from Quebec and French education systems often graduate from programs that limit the opportunity to diversify their elective courses, further compounding these barriers. By removing such restrictions, we could attract a broader, more diverse pool of applicants, addressing the teacher shortage while promoting inclusivity and equity in the admissions process. This approach would align our institution with other universities across Canada that are reducing such barriers. For instance, universities in Ontario have eliminated these admission requirements, setting a precedent for more accessible and equitable education.

CALENDAR & CURRICULUM CHANGE

Motion # 36

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
ED 4760 French Methods ED 4800 Teaching in a Core French, Immersion and French First Language in a Minority Context Setting	ED 4570 Sciences Humaines 2 ED 4260 Intermediate/Senior Mathematics I ED 4270 Mathes 2 <u>ED 4360 Intermediate/Senior English I</u> <u>ED 4370 Intermediate/Senior English II</u> ED 4460 Sciences 1 ED 4470 Sciences 2 ED 4760 French Methods ED 4800 Teaching in a Core French, Immersion and French First Language in a Minority Context Setting <u>ED 4888 Littérature-Éducation en Français (Intermédiaire/Secondaire)</u>

Rationale for Change: We propose that revising the required courses around French Methods and French literacy would streamline topics and ensure courses build on previous knowledge without repetition. This will enhance the learning experience of students by promoting deeper understanding and engagement in French contexts, allowing pre-service teachers to progress through the material in a more logical and rewarding sequence. Additionally, if English is included as a teachable subject for admission (submitted in a previous motion), the course list will need to include ED-4360 and ED-4370 as the two required methods courses for those students

A recent internal quality assurance review recommended that ED 4800 become a required course for all students in the BED-FLS since it provides a much-needed overview of the contexts in which students will complete their practica and future employment. The review also uncovered courses where content overlaps. This change also aims to reduce that overlap. 4900 (language and content) is being removed from the required list for Primary-elementary students since the content of that course is covered in literacy courses such as ED 4890, ED4245 and ED4336. At the intermediate-secondary level, 4900 is maintained since the content is not covered in literacy courses at that level.

CALENDAR & CURRICULUM CHANGE

Motion # 37

Faculty/School: **Education**

Department/Program(s): **Bachelor of Education and Bachelor of Education (français langue seconde) programs**

MOTION: That the new regulations for the Bachelor of Education and Bachelor of Education (français langue seconde) programs be approved as proposed

Proposed New Calendar Entry
<p>DEGREE REQUIREMENTS</p> <p>The following regulations govern students' progression through the program:</p> <p>PROFESSIONAL CONDUCT</p> <p>1. While on practicum, students will adhere to the professional code of conduct for the jurisdiction in which they are on placement (i.e., the PEITF Code of Conduct if placed in a publicly funded school on Prince Edward Island).</p> <p>2. In the event of a reported transgression of the relevant code of conduct, the student's alleged behaviour will be reviewed by the leadership team for the Bachelor of Education programs and the Dean. Consequences could include a warning, suspension or dismissal from the program, depending on the seriousness of the transgression and whether a repeat offence is at play. A student dismissed from the program is immediately withdrawn from the University and would not be eligible for re-admission to the program.</p> <p>ACADEMIC AND PRACTICUM PERFORMANCE</p> <p>3. Students must successfully complete all coursework prior to commencing practicum. In extenuating circumstances, an incomplete grade may be provided to the student and permission to begin practicum may be granted by the Dean following consultation with the leadership team for the Bachelor of Education programs and instructor(s) of the incomplete course(s).</p> <p>4. Attendance: Students are expected to attend scheduled classes, seminars, workshops, practicum placements, and other academic activities that are offered by the program. This includes in-person and virtual sessions, as well as any scheduled group or individual learning activities. In cases of medical emergencies or other exceptional circumstances, students are required to contact the instructor and program Coordinator as soon as possible to discuss possible accommodations. If a student has two absences (6 hours of class time), the student will meet with the instructor, Coordinator, and Dean, and may be required to repeat the course/field placement or be discontinued from the program, the student will meet with the instructor, Coordinator, and Dean to work out an action plan for success. Continued absences from class may lead to course failure.</p> <p>5. Assignment of an Incomplete grade: If a student is unable to complete all assignments within the normal course timeframe or if a student is unable to meet the required competencies or required number of days in the practicum, and if there are extenuating circumstances, then a student may have the opportunity to make up missed coursework in collaboration with the course instructor. or may</p>

CALENDAR & CURRICULUM CHANGE

Motion # 37

Proposed New Calendar Entry
<p>negotiate extra time to meet the required practicum elements, including the required number of practicum days. Make-up coursework must be submitted to the instructor within an agreed amount of time, normally before the beginning of the next practicum session.</p> <p>6. Pass/Fail: Students are required to successfully complete all assessments to achieve a PASS for any course in the B. Ed programs. A PASS in the Bachelor of Education is deemed equivalent to at least 80% in a numerical grading system. A student must pass all courses, including practicum courses, to earn the Bachelor of Education degree. If a student fails a course, then the student will need to take the course again in the following year and pay the course fee.</p> <p>ACADEMIC PROGRESSION</p> <p>7. Academic Warning: Students who fail one B.Ed course will be placed on an academic warning for the remainder of the program. While no restrictions will be placed on their course load, an action plan aimed at supporting the student's success will be negotiated with the B.Ed leadership team and the Dean.</p> <p>8. Academic Suspension: Students who fail two or more B.Ed courses will be suspended from the program. Students who have been suspended from the B.Ed program are eligible for re-admission to the program after at least one year. Reapplication must be made to the Registrar's Office. Students who are permitted to return to the B.Ed. program at UPEI return with a supportive action plan. Students placed on Academic Suspension a second time will not normally be considered for re-admission for at least two full years following the second suspension.</p> <p>9. Appeal: The conditions of academic suspension are subject to appeal to the Senate Academic and Student Discipline Appeals Committee.</p>

Rationale: Previously, the Bachelor of Education programs did not have program-specific regulations in the UPEI Academic Calendar. The proposed regulations aim to ensure student accountability and professional readiness. These regulations are modeled after those from the Bachelor of Nursing program at UPEI- another professional program with a combination of course work on campus and a significant experiential component in a professional setting that is governed by ethical and professional standards. These regulations align with the program's commitment to producing competent and professional educators.

Effective Term: SUMMER 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

Resources Required: N/A

SUMMARY OF CHANGES FACULTY OF IKERAS

Motion #'S 38-42

Summary of Motions

Faculty of IKERAS

#	Type of Motion	Motion
38.	Calendar Entry Change	IKE 3065
39.	New Course Proposal	Indigenous Child Welfare
40.	New Course Proposal	Louis Riel and the Red River and North-West Resistances
41.	New Course Proposal	The Fur Trade
42.	New Course Proposal	Urban Indigenous Peoples of Canada

CALENDAR & CURRICULUM CHANGE

Motion # 38

Revision is for a: **Course Number Change**

Faculty/School/Department: **IKERAS**

Department/Program(s)/Academic Regulations: **IKERAS**

MOTION: To change the course number and title of IKE 3065 – Indigenous Health, Healing, and Wellbeing.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3065 INDIGENOUS HEALTH, HEALING AND WELLNESS</p> <p>Students will be introduced to the determinants of Indigenous peoples' health in Canada. Using both the anthropological and sociological lens, students will develop an understanding of approaches to health and healing that resonate with Indigenous peoples through readings and a collective exploration. Students will understand that health is one of the most significant issues that defines the lives of Indigenous peoples in Canada.</p> <p>PREREQUISITE: IKE 1040</p> <p>Three semester hours of credit</p>	<p>3065 <u>3250</u> (Previously 3065) INDIGENOUS HEALTH, HEALING AND WELLNESS WELLBEING</p> <p>Students will be introduced to the determinants of Indigenous peoples' health in <u>PEI and the wider context of</u> Canada. Using both the anthropological, and sociological, and indigenous cultural, experiential, and health lenses lens, students will develop an understanding of approaches to health and healing that resonate with Indigenous peoples. <u>The course will be delivered through class discussions, assigned and supplemental through readings and a as well as individual and collective exploration.</u> <u>Contemporary understandings and practices will be overlaid on traditional understandings of physical, mental, emotional, and spiritual health and wellbeing to identify and foster holistic Indigenous health and well-being.</u> Students will understand that <u>be introduced to the experience of health is one of the most significant issues that defines defining</u> the lives of Indigenous peoples in Canada.</p> <p>PREREQUISITE: IKE 1040</p> <p>Three semester hours of credit</p> <p>Cross-Listed: NURS 3250</p>

Rationale for Change: This course is being renamed to facilitate it becoming cross listed with a new Nursing course with the same number. The TRC Calls to Action #24 states, “*We call upon medical and nursing schools in Canada to require all students to take a course dealing with Aboriginal health issues, including the history and legacy of residential schools, the United Nations Declaration on the Rights of Indigenous Peoples, Treaties and Aboriginal rights, and Indigenous teachings and practices. This will require skills-based training in intercultural competency, conflict resolution, human rights, and anti-racism.*” In addition, the Canadian Indigenous Nurses Association in partnership with the Canadian

CALENDAR & CURRICULUM CHANGE

Motion # 38

Association of Schools of Nursing (CASN) has recently published a guiding document titled *Cultural Humility and Cultural Safety Standards for Nursing Education*. This document provides the educational framework for accredited nursing programs to guide nurse educators and nursing students to teach, learn, and practice in a way that acknowledges the impacts of colonialism and racism on Indigenous health, removes the deficit lens that is often the view of Indigenous health, and through a trauma and violence informed approach prepares and nurse educators and students to be advocates and practitioners of care that ensures and promotes culturally safe care. The framework also identifies that the work of “*Indigenizing schools of nursing, the curriculum, and teaching practice must be done with guidance and presence from the local Nation or community, Elders, Knowledge Holders, and local Indigenous organizations in a manner that benefits all involved*”. This course will offer a unique experience of learning from Indigenous Elders and Indigenous Health Care Professionals to provide nursing students with the knowledge of the intersectionality between traditional Indigenous health practices (rituals) and colonial health care structures. Nursing students will gain perspectives of Indigenous People’s experiences of health and healing and how they can support Indigenous Peoples during healthcare interactions to promote health, wellness, and safety

Effective Term: FALL 2025

Implications for Other Programs: This course would be cross listed with NURS 3250 - Indigenous Health and Wellbeing. Students enrolled in Nursing would take this course with students in IKERAS.

Impact on Students Currently Enrolled: There would be no impact on students in IKERAS. This course may become the required Indigenous Teachings course for students in the Faculty of Nursing. It would replace IKE 1040 as the requirement for Nursing students beginning with the Accelerated Nursing cohort entering the program in January 2026. Until this time, students who have already completed IKE 1040 would have fulfilled the requirement but would have the option to take this course as an elective. After January 2026, all students entering the nursing program would take this course as a required course.

NEW COURSE PROPOSAL

Motion # 39

Faculty/School: **IKERAS**

Department/Program(s): **IKERAS**

MOTION: That a new course entitled, Indigenous Child Welfare be approved as proposed.

Course Number and Title	IKE 3020 Indigenous Child Welfare
Description	This course will explore: the history of Indigenous child welfare in Canada; the transfer of Federal responsibility to provinces in 1951; the reasoning for the 60's Scoop, Millennial Scoop, and overrepresentation in the child welfare system; the TRC's first five "Calls to Action"; Bill C-92; western perspectives that have been forced upon Indigenous families; the importance of ceremony and the connection to Indigenous values and; returning to the circle of Indigenous ways of being.
Cross-Listing	Click here to enter text.
Prerequisite/Co-Requisite	IKE 1040
Credit(s)	3
Notation	lecture

This is: An Elective Course

Grade Mode: Numeric (Standard)

Anticipated Enrolment: 20 students per offering

Is there an Enrolment Cap: No

If there is an enrolment limit, please explain. Click here to enter text.

Rationale for New Course: To provide education regarding the first five Calls to Action within the Truth and Reconciliation Commission of Canada: Calls to Action, dealing with child welfare. In addition, this course provides an additional elective course. As IKERAS moves forward with full degree aspirations, having a course such as this provides opportunity for UPEI students to engage in further human service education. .

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: This course will provide an additional elective choice for students currently enrolled.

Resources Required: This course will be staffed by existing IKERAS faculty. The Library's collection has sufficient resources to support this proposal.

In offering this course will UPEI require facilities or staff at other institutions: No

If yes, please explain. Click here to enter text.

NEW COURSE PROPOSAL

Motion # 39

LIBRARY RESOURCE REQUIREMENTS FOR A NEW COURSE PROPOSAL

Indigenous Child Welfare

To be completed by the liaison and/or collections librarian.

Note that the submitting program is required to allow the library staff two weeks to complete this.

Existing resources:

- Collections - Print books, Ebooks, other physical media, other online media, subscriptions, other
 - Books
 - Relevant subject headings include:
 - Child Welfare (13)
 - Colonialism (281)
 - Decolonization (3,604)
 - Indigeneity (8,363)
 - Indigenous peoples Politics and government. (204)
 - Indians of North America (9,458)
 - Indians of North America – Canada (114)
 - Indians of North America > Canada > Government relations (393)
 - Indians of North America > Legal status, laws, etc. > Canada (207)
 - Indians of North America > Canada > Treaties (71)
 - Canada. Indian Act (36)
 - Indigenous peoples > Legal status, laws, etc. > Canada. (92)
 - Indigenous resistance (915)
 - Indigenous ways of knowing (4)
 - Native peoples > Canada > Government relations. (581)
 - Native peoples > Civil rights > Canada. (29)
 - Native peoples > Legal status, laws, etc. > Canada. (89)
 - North America Colonization (103)
 - Postcolonialism (140)
 - Residential Schools (29)
 - Truth and Reconciliation Commission of Canada (22)
 - Databases
 - American Indian History Collection
 - *Bibliography of Indigenous Peoples in North America*
 - *Encyclopedia of Native-American History*
 - *HeinOnline Canadian Core*
 - *Indigenous Peoples of North America*
 - *Informit Indigenous Collection*
 - *Academic Search Complete* (EBSCO)
 - *MLA International Bibliography* (EBSCO)
 - *America: History & Life* (EBSCO)
 - *SocIndex with Full Text* (EBSCO)
 - *CBCA (Canadian Business & Current Affairs)* (Proquest)
 - *Canada Commons, Canadian Electronic Library* (thousands of ebooks, tens of thousands of public documents)

NEW COURSE PROPOSAL

Motion # 39

- *Frontier Life: Borderlands, Settlement & Colonial Encounters* (Adam Matthew Digital, historical archive)
 - *CANSIM @ CHASS* - Statistics Canada's socioeconomic database
- Journal Subscriptions
 - The Library provides access to many journals in this field. See [Indigenous related journal holdings 2025](#)
- Streaming Video
 - NFB Education (National Film Board)
 - Indigenous People in Canada (First Nations and Metis) (41 videos)
 - Indigenous Peoples in Canada (Inuit) (29 videos)
 - Indigenous Peoples Outside Canada (2 videos)
 - Curio (CBC news and documentary videos)
 - Provides access to theme collections including Residential Schools (54 videos)
 - Truth and Reconciliation in Canada (22 videos)
 - Indigenous Governance (35 videos)
 - Traditional Indigenous Knowledge (14 videos)
 - Indigenous Language Revitalization (30 videos)
 - Indigenous Youth (40 videos)
 - Academic Videos Online
 - Access to over 2,000 videos with search term "Indigenous"
- Interdisciplinary packages that include content that support this course
 - The Library subscribes to interdisciplinary journal packages with Elsevier (ScienceDirect), Wiley, Springer, Oxford, Sage, Taylor and Francis, and Project Muse.
 - The Library subscribes to interdisciplinary ebook packages with Ebsco, Proquest, JStor, Wiley, Cambridge, Elsevier, and Project Muse
- Special Collections
 - Since the early 1970s, the Library has worked to acquire, preserve, and make available all published works (books, periodicals, reports, etc.) generated on or otherwise connected to Epekwitk / Île Saint-Jean / Prince Edward Island; this "PEI Collection" now encompasses ~12,000 titles, and continues to grow steadily, with an active acquisitions mandate. This mandate includes material relating to the Island's first inhabitants, the Mi'kmaq People. Going forward, the Library's Special Collections unit is committed to supporting IKERAS faculty, knowledge keepers, and learners through the continued acquisition of publications and other learning / research materials relating to the Mi'kmaq, and other Indigenous peoples in the Atlantic region.
- Physical Space in Library (other than collections)
- Library Administrative/Research Support
 - Liaison Librarians provide reference and instruction support to both students and faculty as needed. They monitor publication lists for new titles in the subject area and purchase appropriate titles as existing budgetary resources permit.

New resources needed to support this proposal:

The Library's collection has sufficient resources to support this proposal.

Does the budget allocation for library resources in this proposal meet the requirement?

NEW COURSE PROPOSAL

Motion # 39

The original IKE-1040 New Course Proposal form (2021-2022) recommended one-time purchases of two collections to support the proposed Major in Indigenous Studies. Based on a review of the current and proposed courses we would recommend the purchase of the following:

- Early Encounters in North America: Peoples, Cultures, and the Environment
- American Indian Histories and Cultures

Purchasing the two full-text collections amounts to a one-time cost of \$38,000 (2021-22 est.).

NEW COURSE PROPOSAL

Motion # 42

LIBRARY RESOURCE REQUIREMENTS FOR A NEW COURSE PROPOSAL

Urban Indigenous Peoples of Canada

To be completed by the liaison and/or collections librarian.

Note that the submitting program is required to allow the library staff two weeks to complete this.

Existing resources:

- Collections – Print books, Ebooks, other physical media, other online media, subscriptions, other
 - Books
 - [Human rights -- Canada](#) (33)
 - [Indians of North America – Canada](#) (114)
 - [Indigenous peoples -- Canada](#) (43)
 - [Indigenous peoples--Canada--Economic conditions](#) (12)
 - [Indigenous peoples--Canada--Government relations](#) (97)
 - [Indigenous peoples -- Canada -- Social conditions](#) (23)
 - [Indigenous peoples--Canada--Ethnic identity](#) (21)
 - [Indigenous peoples -- Civil rights -- Canada](#) (7)
 - [Indigenous peoples -- Health and hygiene -- Canada](#) (9)
 - [LAW / Indigenous Law & Legal Systems](#) (217)
 - [Native peoples -- Urban residence -- Canada.](#) (4)
 - [Urban Indigenous peoples--Canada](#) (5)
 - Databases
 - American Indian History Collection
 - *Bibliography of Indigenous Peoples in North America*
 - *Canadiana*
 - *Encyclopedia of Native-American History*
 - *HeinOnline Canadian Core*
 - *Indigenous Peoples of North America*
 - *Informit Indigenous Collection*
 - *PsycInfo* (EBSCO)
 - *Academic Search Complete* (EBSCO)
 - *MLA International Bibliography* (EBSCO)
 - *America: History & Life* (EBSCO)
 - *SocIndex with Full Text* (EBSCO)
 - *EconLit with Full Text* (EBSCO)
 - *CBCA (Canadian Business & Current Affairs)* (Proquest)
 - *Canada Commons, Canadian Electronic Library* (thousands of ebooks, tens of thousands of public documents)
 - *Frontier Life: Borderlands, Settlement & Colonial Encounters* (Adam Matthew Digital, historical archive)
 - *CANSIM @ CHASS* - Statistics Canada's socioeconomic database
 - Journal Subscriptions
 - The Library provides access to many journals in this field. See [Indigenous related journal holdings 2025](#)
 - Streaming Video
 - NFB Education (National Film Board)
 - Indigenous People in Canada (First Nations and Metis) (41 videos)
 - Curio (CBC news and documentary videos)

NEW COURSE PROPOSAL

Motion # 42

- Provides access to theme collections including Residential Schools (54 videos)
- Truth and Reconciliation in Canada (22 videos)
- Indigenous Governance (35 videos)
- Traditional Indigenous Knowledge (14 videos)
- Indigenous Language Revitalization (30 videos)
- Indigenous Youth (40 videos)
- Academic Videos Online
 - 2,000+ videos with search term “Indigenous”
 - 63 videos with search term “Métis”
- Interdisciplinary packages that include content that support this course
 - The Library subscribes to interdisciplinary journal packages with Elsevier (ScienceDirect), Wiley, Springer, Oxford, Sage, Taylor and Francis, and Project Muse.
 - The Library subscribes to interdisciplinary ebook packages with Ebsco, Proquest, JStor, Wiley, Cambridge, Elsevier, and Project Muse
- Physical Space in Library (other than collections, explain)
- Library Administrative/Research Support
 - Liaison Librarians provide reference and instruction support to both students and faculty as needed. They monitor publication lists for new titles in the subject area and purchase appropriate titles as existing budgetary resources permit.

New resources needed to support this proposal:

The Library’s collection has sufficient resources to support this proposal.

Does the budget allocation for library resources in this proposal meet the requirement?

The original IKE-1040 New Course Proposal form (2021-2022) recommended one-time purchases of two collections to support the proposed Major in Indigenous Studies. Based on a review of the current and proposed courses we would recommend the purchase of the following:

- Early Encounters in North America: Peoples, Cultures, and the Environment
- American Indian Histories and Cultures

Purchasing the two full-text collections amounts to a one-time cost of \$38,000 (2021-22 est.).

Date Received by Liaison/Collections Librarian	January 8, 2025
Name of Librarian to be Contacted with Questions	Courtney Matthews
Approved by University Librarian or Designate	Click here to enter approver’s name. Donald Moses

CALENDAR & CURRICULUM CHANGE

Motion # 43

Revision is for a: **Pre-requisite Addition/Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To remove references to Accelerated Nursing students who do not take this course.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>1010 FOUNDATIONS OF NURSING I This course is an introduction to the discipline of nursing. Students are introduced to the philosophy of primary health care and the framework for nursing at UPEI. Clinical experiences occur in community settings with well elderly clients. Students learn beginning skills in communication, assessment and psychomotor techniques through active involvement in classroom discussions, labs, tutorials and clinical practice. PREREQUISITE(S): For Accelerated Nursing Students – Admission to the Accelerated Program Semester hours of credit: 3 Hours per week: Lecture: 3 Lab: 2 Other – Clinical Practice: 30 hours total (includes weekly tutorial)</p>	<p>1010 FOUNDATIONS OF NURSING I This course is an introduction to the discipline of nursing. Students are introduced to the philosophy of primary health care and the framework for nursing at UPEI. Clinical experiences occur in community settings with well elderly clients. Students learn beginning skills in communication, assessment and psychomotor techniques through active involvement in classroom discussions, labs, tutorials and clinical practice. PREREQUISITE(S): <u>For Accelerated Nursing Students – Admission to the Accelerated Program 4-year Nursing Program.</u> Semester hours of credit: 3 Hours per week: Lecture: 3 Lab: 2 Other – Clinical Practice: 30 hours total (includes weekly tutorial)</p>

Rationale for Change: Only students in the Four (4) year nursing program take NURS 1010

Effective Term: SUMMER 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

Authorization

Date:

Departmental Approval: Faculty of Nursing	November 4, 2024
Faculty/School Approval: Faculty of Nursing Curriculum Committee	November 4, 2024
Faculty Dean's Approval: Dr. Patrice Drake (acting Dean)	November 4, 2024

Registrar's Office Approval: Darcy McCardle	March 11, 2025

Form Version: September 2023

CALENDAR & CURRICULUM CHANGE

Motion # 44

Revision is for a: **Pre-requisite Addition/Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To remove the pre-requisite of admission to the accelerated program and completion of Nursing 1010 from Nursing 1020 and add Biology 1060 as a pre-requisite.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>1020 FOUNDATIONS OF NURSING II Students are introduced to the theoretical concept of caring for clients within a primary health care context. Using primary health care as a framework, nursing concepts are explored and strategies for nursing care considered. Students begin to develop a conceptual framework to guide their nursing practice while working with clients in long term care settings. PREREQUISITE(S): Four Year Program – Nursing 1010, Biology 1210; Accelerated Nursing Students – Admission to Accelerated Program and Nursing 1010 Semester hours of credit: 6 Hours per week: Lecture: 3 Lab: 2 Other – Clinical Practice: 55 hours total</p>	<p>1020 FOUNDATIONS OF NURSING II Students are introduced to the theoretical concept of caring for clients within a primary health care context. Using primary health care as a framework, nursing concepts are explored and strategies for nursing care considered. CALENDAR & CURRICULUM CHANGE

Motion # 44

Registrar's Office Approval: Darcy McCardle	March 11, 2025
---	----------------

Form Version: September 2023

CALENDAR & CURRICULUM CHANGE

Motion # 45

Revision is for a: **Pre-requisite Addition/Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To change description of required pre-requisites from *non-nursing required courses* to *pre-nursing pre-requisites*.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>1030 FUNDAMENTALS OF NURSING PRACTICE</p> <p>Nursing 1030 examines fundamental principles and skills for nursing practice. Students are introduced to Primary Health Care and to the Prince Edward Island Conceptual Model of Nursing: A Nursing Perspective of Primary Health Care. Through this theoretical framework, nursing concepts are explored and strategies for nursing care considered. Students are introduced to beginning communication, assessment, and psychomotor skills through active participation in online and onsite lectures, lab and clinical seminar settings. Students have an opportunity to apply theoretical knowledge to clinical practice by partnering with healthy older adults living independently in the community and in long term care settings.</p> <p>PREREQUISITE(S): Admission to the Accelerated Program and completion of non-nursing required courses Semester hours of credit: 9 Hours per week: Lecture: 3 Lab: 2 Other – Clinical Practice: 86 hours total</p>	<p>1030 FUNDAMENTALS OF NURSING PRACTICE</p> <p>Nursing 1030 examines fundamental principles and skills for nursing practice. CALENDAR & CURRICULUM CHANGE

Motion # 46

Revision is for a: **Pre-requisite Addition/Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To remove Nursing 2130 as a pre-requisite for Nursing 2120 and add admission to the Accelerated Nursing Program. In addition to change weekly laboratory to seminar.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>2120 PATHOPHYSIOLOGY FOR NURSING STUDENTS</p> <p>This course is an overview of pathophysiological mechanisms of disease states. Concepts and processes of abnormal physiology in various body systems are presented using selected diseases as illustrations. Unique features of child and adult responses are presented.</p> <p>PREREQUISITE: Biology 1220, Nursing 2030 and Nursing 2130</p> <p>Semester hours of credit: 3</p> <p>Hours per week: Three hours of lecture and three hours of laboratory per week</p>	<p>2120 PATHOPHYSIOLOGY FOR NURSING STUDENTS</p> <p>This course is an overview of pathophysiological mechanisms of disease states. Concepts and processes of abnormal physiology in various body systems are presented using selected diseases as illustrations. Unique features of child and adult responses are presented.</p> <p>PREREQUISITE: Four-year program: Biology 1210, Biology 1220, Nursing 2030 <u>and Admission to the Accelerated Nursing Program.</u></p> <p>Semester hours of credit: 3</p> <p>Hours per week: Three hours of lecture and <u>three</u> <u>1.5 hours of laboratory seminar</u> per week</p>

Rationale for Change: The lab for NURS 2120 was not a lab. It is a seminar where case studies and active learning happens to augment classroom learning. Does not require a lab space to teach. Students in the accelerated nursing program follow a different sequence than 4-year students. N2130 is taken after N2120 by the accelerated students and needed to change to facilitate ease of registration,

Effective Term: SUMMER 2025

CALENDAR & CURRICULUM CHANGE

Motion # 48

Revision is for a: **Pre-requisite Addition/Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To change the pre-requisites for accelerated students to be in line with the current course structure for the accelerated cohort and to update the clinical practice hours.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>2230 ADULT NURSING: TRANSITIONS IN HEALTH</p> <p>In this course, the student focuses on the experience of illness and the impact of illness, both acute and chronic, on the hospitalized client. The primary focus is the individual client; however, the individual is considered within the context of the family. Each student has clinical rotations working with adults in a hospital setting who are experiencing an acute episode of illness or an exacerbation of a chronic illness. Students learn to apply the principles of primary health care to nursing practice in the acute care setting.</p> <p>PREREQUISITES: Four Year Program – Nursing 2030, Nursing 2130; Accelerated Program – Nursing 2130, 2450, and admission to the Accelerated Program</p> <p>Semester hours of credit: 6</p> <p>Hours per week; Lecture: 3 Lab/Seminar: 3</p> <p>Other – Clinical Practice: 168 hours total</p>	<p>2230 ADULT NURSING: TRANSITIONS IN HEALTH</p> <p>In this course, the student focuses on the experience of illness and the impact of illness, both acute and chronic, on the hospitalized client. The primary focus is the individual client; however, the individual is considered within the context of the family. Each student has clinical rotations working with adults in a hospital setting who are experiencing an acute episode of illness or an exacerbation of a chronic illness. Students learn to apply the principles of primary health care to nursing practice in the acute care setting.</p> <p>PREREQUISITES: Four Year Program – Nursing 2030, Nursing 2130; Accelerated Program – Nursing 2130, <u>and Nursing 2450</u>, and admission to the Accelerated Program.</p> <p>Semester hours of credit: 6</p> <p>Hours per week; Lecture: 3 Lab/Seminar: 3 Other – Clinical Practice: 168 <u>192</u> hours total</p>

Rationale for Change: Differences in sequencing of courses between the 4-year program and the accelerated program created challenges for accelerated when they registered. Changing the pre-requisites will eliminate this for the accelerated students. Also, the clinical practice hours have increased in this course.

Effective Term: SUMMER 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

Revision is for a: **Pre-requisite Addition/Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To update pre-requisites for Nursing 2320 – Introductory Pharmacology

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>2320 INTRODUCTORY PHARMACOLOGY This course is an introduction to the discipline of pharmacology and the response of the human body to pharmacological agents used to manage disease and promote wellness. The principal objective is to provide an introduction to the pharmacokinetics and pharmacodynamics of each major class of drugs used in nursing practise. As well, clinical case studies are included so the student gains knowledge of nursing assessments of drug efficacy, side effects and drug interactions, special considerations for geriatric and pediatric patients, drugs used in public health, emergencies and over-the-counter medications, and non-pharmacological ways to manage or prevent disease. PREREQUISITES: Biology 1220, Nursing 2030, and 2130. Exceptions are made with permission of the Dean Semester hours of credit: 3 Hours per week: Lecture 3</p>	<p>2320 INTRODUCTORY PHARMACOLOGY This course is an introduction to the discipline of pharmacology and the response of the human body to pharmacological agents used to manage disease and promote wellness. CALENDAR & CURRICULUM CHANGE

Motion # 52

Revision is for a: **Calendar Entry Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To change the pre-requisites for NURS 3040 and correct an error in lab/seminar and clinical.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3040 NURSING RESEARCH METHODS This course is an introduction to quantitative and qualitative nursing research. It provides students with a solid foundation for the continued study of research and nursing scholarship. Students will develop an understanding of and appreciation for all phases of the research process, with an emphasis on the novice professional's role as an informed consumer of research. Students will develop skills in critiquing published studies and in making judgements about the usefulness of research for nursing practice. PREREQUISITE: A course in statistics and permission of the instructor if not currently enrolled in the third year of the program. Semester hours of credit: 3 Hours per week: Lecture: 3 Lab/Seminar: 3 Other – Clinical Practice: 120 hours total</p>	<p>3040 NURSING RESEARCH METHODS This course is an introduction to quantitative and qualitative nursing research. It provides students with a solid foundation for the continued study of research and nursing scholarship. Students will develop an understanding of and appreciation for all phases of the research process, with an emphasis on the novice professional's role as an informed consumer of research. Students will develop skills in critiquing published studies and in making judgements about the usefulness of research for nursing practice. PREREQUISITE: <u>Four Year Program: A course in statistics and Nursing 2230</u> permission of the instructor if not currently; <u>Accelerated Program: A course in statistics and Nursing 3060.</u> Semester hours of credit: 3 Hours per week: Lecture: 3 Lab/Seminar: 3 Other – Clinical Practice: 120 hours total</p>

Rationale for Change: Removing permission of the instructor if not in third year is necessary to ensure to support optimal student learning. Students in different years of the nursing program in this course present significant challenges related to learning. The references to lab/seminar and clinical practice are an error since this course has never had either.

Effective Term: SUMMER 2025

NEW COURSE PROPOSAL

Motion # 56

Faculty/School: **Nursing**

Department/Program(s): **Nursing**

MOTION: To approve the new course titled Indigenous Health and Wellbeing as the required Indigenous teachings course for students in the Faculty of Nursing.

Course Number and Title	NURS 3250 - Indigenous Health and Wellbeing
Description	Students will be introduced to historical and contemporary socio-political and policy determinants of Indigenous peoples' health in PEI and the wider context of Canada. Using anthropological, sociological and Indigenous cultural, experiential, and health lenses, students will develop an understanding of approaches to health and healing that resonate with Indigenous peoples. The course will be delivered through class discussions, assigned and supplemental readings, as well as individual and collective exploration. Contemporary understandings and practices will be overlaid on traditional understandings of physical, mental, emotional, and spiritual health and wellbeing to identify and foster holistic Indigenous health and well-being. Students will be introduced to the experience of health as one of the most significant issues defining the lives of Indigenous peoples in Canada.
Cross-Listing	IKE 3250
Prerequisite/Co-Requisite	Nursing 2230:
Credit(s)	3
Notation	NA

This is: An Elective Course

Grade Mode: Numeric (Standard)

Anticipated Enrolment: 98

Is there an Enrolment Cap: No

If there is an enrolment limit, please explain. [Click here to enter text.](#)

Rationale for New Course: The TRC Calls to Action #24 states, “We call upon medical and nursing schools in Canada to require all students to take a course dealing with Aboriginal health issues, including the history and legacy of residential schools, the United Nations Declaration on the Rights of Indigenous Peoples, Treaties and Aboriginal rights, and Indigenous teachings and practices. This will require skills-based training in intercultural competency, conflict resolution, human rights, and anti-racism.” In addition, the Canadian Indigenous Nurses Association in partnership with the Canadian Association of Schools of Nursing (CASN) has recently published a guiding document titled *Cultural Humility and Cultural Safety Standards for Nursing Education*. This document provides the educational framework for accredited nursing programs to guide nurse educators and nursing students to teach, learn, and practice in a way that acknowledges the impacts of colonialism and racism on Indigenous health, removes the deficit lens that is often the view of Indigenous health, and through a trauma and violence informed approach prepares and nurse educators and students to be advocates and practitioners of care that ensures and promotes culturally safe care. The framework also identifies that the work of “*Indigenizing schools of nursing, the curriculum, and teaching practice must be done with guidance and presence from the local Nation or*

NEW COURSE PROPOSAL

Motion # 56

community, Elders, Knowledge Holders, and local Indigenous organizations in a manner that benefits all involved". This course will offer a unique experience of learning from Indigenous Elders and Indigenous Health Care Professionals to provide nursing students with the knowledge of the intersectionality between traditional Indigenous health practices (rituals) and colonial health care structures. Nursing students will gain perspectives of Indigenous People's experiences of health and healing and how they can support Indigenous Peoples during healthcare interactions to promote health, wellness, and safety.

Effective Term: SUMMER 2025

Implications for Other Programs: This course would be cross listed with IKE 3250 - Indigenous Health and Wellbeing. Students enrolled in IKERAS would take this course with students in Nursing.

Impact on Students Currently Enrolled: This course may become the required Indigenous Teachings course for students in the Faculty of Nursing. It would replace IKE 1040 as the requirement for Nursing students beginning with the Accelerated Nursing cohort entering the program in January 2026. Until this time, students who have already completed IKE 1040 would have fulfilled the requirement but would have the option to take this course as an elective. After January 2026, all students entering the nursing program would take this course as a required course.

Resources Required: This program will require some library resources and this assessment was already completed for this course when it was listed as IKE 3065.

In offering this course will UPEI require facilities or staff at other institutions: Yes

If yes, please explain. This course is being offered in conjunction with the Abegweit Mi'kmaw First Nation Health and Healing Centre, both of which are fully Canada Health accredited Indigenous Health facilities. This course will be owned and delivered by Abegweit Mi'kmaw First Nation Health and Healing Centre

NEW COURSE PROPOSAL**Motion # 56****LIBRARY RESOURCE REQUIREMENTS FOR A NEW COURSE PROPOSAL**

Please note that after consultation with Librarian for Nursing and the Librarian for IKERAS, it was determined that the library assessment for IKE 3065 would be suitable for NURS 3250/IKE 3250 since it is going to be the same course with minor modifications. The librarians stated that since this assessment was completed the library holdings related to indigenous studies have expanded so there is a great breadth of resources.

IKE-3065 Indigenous Health, Healing and Wellness

Library Resource Requirements (to be completed by the liaison and/or collections librarian)

We recognize that this is the first of a number of new course proposals that will be coming from the Faculty of Indigenous Knowledge, Education, Research, and Applied Studies. To ensure that the program has the resources needed to provide support for this course and for the others that are anticipated, the Library has included a number of one-time cost items and subscriptions that are intended to support the program. As new course proposals come forward those new resources can be referenced.

Existing resources:

- Collections - Holdings, Subscriptions, Other
 - Books - Subject searches included:
 - Indians of North America (5,278)
 - Indians of North America > Health and hygiene (67)
 - Indigenous peoples > Health and hygiene > Canada (36 results)
 - Indigenous peoples > Canada > Medical care (16 results)
 - Traditional medicine > North America (9 results)
 - Indigenous peoples > Canada > Mental health (14)
 - Indigenous peoples > Mental health services (9)
 - Indigenous peoples > Nutrition (5 results)
 - Native peoples > Hospitals (6)
- Databases
 - Academic Search Complete (EBSCO)
 - CINAHL (EBSCO)
 - PubMed
 - MLA International Bibliography (EBSCO)
 - America: History & Life (EBSCO)
 - SocIndex with Full Text (EBSCO)
 - CBCA (Canadian Business & Current Affairs) (Proquest)
 - DesLibris Canadian Electronic Library (thousands of ebooks, tens of thousands of public documents)
 - iPortal
 - Frontier Life: Borderlands, Settlement & Colonial Encounters (Adam Matthew Digital, historical archive)
 - CHASS/CANSIM - Statistics Canada's socioeconomic database
 - Data Liberation Initiative (DLI) - access to microdata individual level datasets

NEW COURSE PROPOSAL

Motion # 56

- Journal Subscriptions
 - The Library provides access to a number of key journals in this field. [See spreadsheet.](#)
- Streaming Video
 - NFB Campus (National Film Board)
 - Includes Indigenous People in Canada (First Nations and Metis) (41 videos), Indigenous Peoples in Canada (Inuit) (29 videos), and more
 - Curio (CBC news and documentary videos)
 - Provides access to theme collections including Residential Schools (38 videos), Truth and Reconciliation in Canada (16 videos), Indigenous Youth (22 videos), Indigenous Language Revitalization (25 videos), and more.
 - Academic Videos Online ▪
 - Over 150 videos
- Subscription Dependencies (in interdisciplinary packages)
 - The Library subscribes to interdisciplinary journal packages with Elsevier (ScienceDirect), Wiley, Springer, Oxford, Sage, Taylor and Francis, and Project Muse.
 - The Library subscribes to interdisciplinary ebook packages with EBSCOhost, ProQuest, JStor, Wiley, Cambridge, Elsevier, and Project Muse.
- Physical Space in Library (other than holdings, explain) - N/A
- Library Administrative/Research Support:
 - Liaison Librarians provide reference and instruction support to both students and faculty as needed. They monitor publication lists for new titles in the subject area and purchase appropriate titles as existing budgetary resources permit.

New resources needed to support this proposal:

See IKE-1040 New Course Proposal form where the new resources are detailed.

Does the budget allocation for library resources in this proposal meet the requirement?

In the IKE-1040 New Course APCC Form we highlighted library resource costs needed to support the entire program including this course. First year costs are \$20,900 and annual costs following the first year are \$11,300 (+3% annual increase). We have not yet determined the anticipated additional staffing costs that will be required to support library instruction. In addition, we have identified and would strongly recommend the purchase of additional one-time resources (\$94,00)

Date Received by Liaison/Collections Librarian	February 21, 2022
Name of Librarian to be Contacted with Questions	Courtney Matthews
Approved by University Librarian or Designate	Donald Moses
Date Approved by UL or Designate	February 25, 2022

CALENDAR & CURRICULUM CHANGE

Motion # 57

Revision is for a: **Calendar Entry Change**

Faculty/School/Department: **Nursing**

Department/Program(s)/Academic Regulations: **Nursing**

MOTION: To correct error in calendar entry for NURS 3340 – Psychiatric and Mental Health Nursing and add a pre-requisite.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3340 PSYCHIATRIC AND MENTAL HEALTH NURSING NURS 3340 Psychiatric and Mental Health Nursing This course will provide opportunities for students to develop partnerships with people who live with complex mental health and addiction challenges. Students will deliver evidence- informed holistic and ethical mental health nursing care in collaboration with individuals, families, and others across the continuum of mental health care. Students will assess health, provide and evaluate interventions. Course content will be framed using concepts such as, mental health promotion and well-being, recovery, intersectionality, trauma-informed care, primary health care principles, cultural competence, diversity, inclusion, humility, and safety. PREREQUISITE: NURS 2230 Semester hours of credit: 3</p>	<p>3340 PSYCHIATRIC AND MENTAL HEALTH NURSING NURS 3340 Psychiatric and Mental Health Nursing This course will provide opportunities for students to develop partnerships with people who live with complex mental health and addiction challenges. <p>Department and for course description for PSY 2710, see Psychology Department. 10, 11, 12, 13) Three free electives Please Note: 1) NURS 4010 will normally meet the UPEI Writing Intensive degree requirement. Please see list of Writing Intensive Courses. 2) For students not accepted to the Bachelor of Science in Nursing program and looking to upgrade their mark in the English requirement for admission to Nursing for a future application, only UPEI 1010, UPEI 1020 or any course designated/offered by the English Department will meet the requirement. move to admission Accelerated Bachelor of Science in Nursing Program Students apply for the Accelerated Bachelor of Science in Nursing (BScN) Program through the Registrar's Office, and must submit the UPEI undergraduate application form. Students in the Accelerated Program are required to take the same Nursing courses (NURS-1030 instead of NURS-1010 & 1020) and have the same number of clinical hours as students in the four-year BScN program. They are governed by the academic regulations for Nursing as outlined in the Calendar. To be eligible for the Accelerated BScN Program, applicants must have: successfully completed Grade 12 Academic or equivalent courses in English, Math, Chemistry, and Biology; successfully completed 60 semester hours of university-level credit; of the 60 semester hours of credit noted above, 27 semester hours of credit must come from the list of courses below (at the credit weights noted), with a minimum average of 75% in these 9 courses (27 semester hours) with no individual course grade below 60%: Human Anatomy (3 semester hours) – lab required Human Physiology (3 semester hours) – lab</p>	and Families Living with Chronic Illness

required Microbiology (3 semester hours) – lab required Introductory Psychology (6 semester hours) Developmental Psychology (3 semester hours) Statistics (3 semester hours) Introductory Nutrition (3 semester hours) One (1) English courses (3 semester hours) (The above noted courses must be successfully completed at an undergraduate degree level at a recognized post-secondary institution. Courses must have been completed within the past 10 years and fulfill the criteria outlined for regular transfer credit equivalency review). Note: Required courses in Pathophysiology and Pharmacology can be taken during the Accelerated Program. Enrolment is limited to 28 students per year. Application deadline for admission is July 15. The Accelerated BScN program is unique in that it recognizes previous course work toward completion of the degree. Previous course work will be recognized (60 semester hours of credit required for admission) as contributing to total credit degree requirements but will not be assigned as transfer credit if completed outside of UPEI. Students in the Accelerated BScN program will complete 81 semester hours of nursing specific courses to fulfill the degree requirements for the BScN. First Year Required: January – April NURS 1030 – Fundamentals of Nursing Practice NURS 2450 – Health Assessment NURS 2320 – Introductory Pharmacology NURS 2120 – Pathophysiology for Nursing Students Mid-April – August NURS 2130 – Nursing of Young Families NURS 2230 – Adult Nursing: Transitions in Health NURS 3060 – Nursing of the Childbearing Families Note: All students must complete IKE 1040 – Indigenous Teachings of Turtle Island	-	-	-	-	-	-

Rationale for Change: The Faculty of Nursing academic calendar entry did reflect the numerous changes to the program related to the expansion of the program. This created issues for students in registering for courses in both the 4-year program and the accelerated program.

Effective Term: WINTER 2025

Implications for Other Programs: Not applicable as there are no timetable changes.

Impact on Students Currently Enrolled: N/A

Revision is for a: Calendar Entry Change

Faculty/School/Department: **Science**

Department/Program(s)/Academic Regulations: Foods & Nutrition, Dietetic Internship Program

MOTION: To approve the calendar entry changes to the section titled “Admission Requirements” for the Integrated Dietetic Internship program as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>ADMISSION REQUIREMENTS</p> <p>Normally, students are eligible to apply for admission in Fall of the 3rd year of the major in Foods & Nutrition program.</p>	<p>ADMISSION REQUIREMENTS</p> <p>Normally, students are eligible to apply for admission in Fall of the 3rd year of the major in Foods & Nutrition program.</p> <p><u>A. CASPer Test Requirement</u></p> <p><u>All applicants to Integrated Dietetic Internship Program are required to complete a CASPer assessment (CASPer Test), in addition to meeting academic requirements. Successful completion of CASPer is mandatory in order to maintain admission eligibility.</u></p> <p><u>CASPer is an online test which assesses for non-cognitive skills and interpersonal characteristics that are important for successful students and graduates of the Dietetics program. In implementing CASPer, we are trying to further enhance fairness and objectivity in our admission selection process.</u></p> <p><u>Please note that the CASPer test can only be written once within an admission cycle. Multiple test attempts are not permitted. Additionally, CASPer test results are only valid for one admission cycle. Applicants who have already taken the test in previous years must re-take it.</u></p> <p><u>To view UPEI CASPer test dates and to learn more about CASPer visit this link: https://takealtus.com/faq/#prepare</u></p>

CALENDAR & CURRICULUM CHANGE

Motion # 63

<p>All students majoring in Foods and Nutrition who have achieved a minimum cumulative GPA of 3.0 with no Foods and Nutrition course with a grade below 70%, and have completed the following required courses will be eligible to apply for the program:</p> <p>Foods & Nutrition 1110 – Introductory Foods Foods & Nutrition 1120 – Food Systems and Planetary Health Foods & Nutrition 2110 – Introductory Nutrition I Foods & Nutrition 2120 – Introductory Nutrition II Foods & Nutrition 2230 – Determinants of Dietary Behaviour</p> <p>Foods & Nutrition 3210 – Food Service Management Foods & Nutrition 3310 – Research Methods Foods & Nutrition 3510 – Nutritional Assessment Foods & Nutrition 3830 – Professional Practice in Dietetics</p> <p>Biology 1220 – Human Physiology Biology 1310 – Introduction to Cell and Molecular Biology Biology 2060 – Microbiology Chemistry 1110 – General Chemistry I Chemistry 1120 – General Chemistry II Chemistry 2430 – Organic Chemistry</p>	<p>Please direct any inquiries on the test to CASPer provider, Altus.</p> <p><u>B. Academic Requirements</u></p> <p>All students majoring in Foods and Nutrition who have achieved a minimum cumulative GPA of 3.0 with no Foods and Nutrition course with a grade below 70%, and have completed the following required courses will be eligible to apply for the program:</p> <p>Foods & Nutrition 1110 – Introductory Foods Foods & Nutrition 1120 – Food Systems and Planetary Health Foods & Nutrition 2110 – Introductory Nutrition I Foods & Nutrition 2120 – Introductory Nutrition II Foods & Nutrition 2230 – Determinants of Dietary Behaviour</p> <p><u>Foods & Nutrition 2610 - Communications</u> Foods & Nutrition 3210 – Food Service Management Foods & Nutrition 3310 – Research Methods Foods & Nutrition 3510 – Nutritional Assessment Foods & Nutrition 3830 – Professional Practice in Dietetics</p> <p>Biology 1220 – Human Physiology Biology 1310 – Introduction to Cell and Molecular Biology Biology 2060 – Microbiology Chemistry 1110 – General Chemistry I Chemistry 1120 – General Chemistry II Chemistry 2430 – Organic Chemistry</p>
--	---

Rationale for Change: Change to include CASPer Test requirement for entrance to Dietetic Internship. FN 2610 is already a graduation requirement for Internship students, but some students have not taken it before entry to the Internship which causes sequencing problems once students are in the Internship. For this reason, we are adding FN 2610 as an admission requirement to ensure students have the course before starting the internship.

Effective Term: Fall 2025.

Implications for Other Programs: None.

Impact on Students Currently Enrolled: Students currently enrolled in the BSc (Foods and Nutrition) program applying for acceptance into the Integrated Dietetic Internship will be required to complete the CASPer Test.

Motion # 64

Revision is for a: **Calendar Entry Change**

Faculty/School/Department: **Science**

Department/Program(s)/Academic Regulations: **Chemistry / Biotechnology**

MOTION: To approve the Calendar Entry Change to the section titled “Bachelor of Science in Biotechnology” as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>Bachelor of Science in Biotechnology</p> <p>This program combines practical and applied courses provided by the Bioscience Technology diploma program at Holland College with strong theoretical science courses at the University of Prince Edward Island. It is designed for students interested in obtaining a rigorous and broad training in biotechnology, such as gaining experience in research, laboratory procedures and safety, scientific ethics, and regulatory affairs, while increasing access to post-graduate opportunities (e.g. Master’s degree programs). Students are provided with foundational science courses as well as senior specialized courses in the life sciences at the university level to complement the strong hands-on technical training acquired during the college diploma program. On-the-job training is provided for all students.</p> <p>There are two paths into this program, so students can either start at Holland College or UPEI, and end up with the same articulated degree. The technical lab-based content is covered at Holland College in the Bioscience Technology diploma program, either during the first two years of the degree (for students who start at Holland College; Path 1) or in year 3 (for students who start at UPEI; Path 2).</p> <p>(NOTE: As per Academic Regulation #1 h), all undergraduate degree programs require successful completion of IKE-1040, one of UPEI-1010, 1020 or 1030, and a Writing Intensive Course.)</p>	<p>Bachelor of Science in Biotechnology</p> <p>This program combines practical and applied courses provided by the Bioscience Technology diploma program at Holland College with strong theoretical science courses at the University of Prince Edward Island. CALENDAR & CURRICULUM CHANGE

Motion # 64

Path 1, starting at Holland College ('2+2'):

If students have received a Bioscience Technology diploma and achieved a minimum 70% average at Holland College, they are eligible to apply to UPEI for formal entry into the BBT degree program. Once accepted to UPEI, students will undertake a rigorous program of 20 courses, 13 of which will be required, 3 will be upper level science electives, and 4 will be general electives. Once accepted, students are subject to all of the Academic Regulations of the University.

Path 2, starting at UPEI ('2+1+1'):

Students apply to start at UPEI in the Faculty of Science directly out of high school, following standard application procedures at UPEI. Once accepted, students undertake one year of science courses similar to a first year biology or chemistry student (8 required courses, 2 electives). Then students apply to Holland College to do the Bioscience Technology diploma program by the deadline of May 1st. Once accepted, they complete their second year of science at UPEI (7 required courses, 3 electives), and then one full year at Holland College in the Bioscience Technology diploma program (includes 2 intersessions). Students then finish back at UPEI in their final year (4 required courses, 3 upper level science electives, 3 general electives).

For students who already have received a Bioscience Technology diploma, the recommended sequence of courses for the 2 years of Path 1 at UPEI is:

Year 1, Semester 1 at UPEI:

Chemistry 2430 – Organic Chemistry for Life Sciences
Chemistry 2210 – Analytical Chemistry
Mathematics 1120 – Calculus for the Managerial, Social, and Life Sciences
Physics 1210 – Physics for the Life Sciences I
One Humanities or General Elective

Path 1, starting at Holland College ('2+2'):

If students have received a Bioscience Technology diploma and achieved a minimum 70% average at Holland College, they are eligible to apply to UPEI for formal entry into the BBT degree program. Once accepted to UPEI, students will undertake a rigorous program of 20 courses, 13 of which will be required, 3 will be upper level science electives, and 4 will be general electives. Once accepted, students are subject to all of the Academic Regulations of the University.

Path 2, starting at UPEI ('2+1+1'):

Students apply to start at UPEI in the Faculty of Science directly out of high school, following standard application procedures at UPEI. Once accepted, students undertake one year of science courses similar to a first year biology or chemistry student (9 required courses, 1-2 electives). ~~Then students apply to Holland College to do the Bioscience Technology diploma program by the deadline of May 1st. Once accepted, they complete their second year of science at UPEI (7 required courses, 3 electives), and then one full year at Holland College in the Bioscience Technology diploma program (includes 2 intersessions). Students then finish back at UPEI in their final year (4 required courses, 3 upper level science electives, 3 general electives).~~

and a second year of science at UPEI (8 required courses, 2 electives). During this second year students apply to Holland College for the Bioscience Technology diploma program by the deadline of May 1st. Once accepted, they complete their second year by attending an intercession program at Holland College in May and June. Then students attend one full year at Holland College in the Bioscience Technology diploma program (including an additional on-the-job training intercession course in May). Students then finish back at UPEI in their final year (4 required courses, 3 upper level science electives, 3 general electives).

CALENDAR & CURRICULUM CHANGE

Motion # 64

	<p>Holland College Bioscience program students will receive a block credit transfer of 30 credit hours and then return to UPEI for the final year of the program.</p> <p><u>Year 4 at UPEI:</u> <u>Chemistry 3220 – Analytical instrumentation</u> <u>Biology 3220 – Introduction to Bioinformatics OR</u> <u>Biology 3620 – Computational Biology</u> <u>Biology 3260 – Introduction to Physiology of Cells and Organisms</u> <u>Biology 4710 – Molecular Biotechnology</u> <u>One Science Elective at the 3000 level</u> <u>One Science Elective at the 4000 level</u> <u>One Science Elective at the 3000 or 4000 level</u> <u>Three General Electives</u></p>
--	---

Rationale for Change: To align the calendar entry with current practice and to add Chem 2210 – analytical chemistry as required course in the pathway 2 program (it is already required in the pathway 1 program) This will improve student experience in the program and provide clearer instruction for students.

Changes are as follows Added requirement for CHEM 2210 – analytical chemistry for the Pathway 2 program (students start at UPEI) at the request of the department. This reflects the observation that this course is needed for students to have a satisfactory experience in the required CHEM 3220 – Analytical Instrumentation course. This took the place of the science elective in second year of Pathway 2.

Added option for BIO 3620 – Computational Biology with BIO 3220 Bioinformatics. Currently BIO 3220 is only offered in alternate years and students were regularly needing to take BIO 3620 and have it substituted. This reflects current practice.

Collected recommended course lists by year rather than by semester to reflect the fact that some courses move between semesters. Deleted detailed course list at Holland college as it was out of date and irrelevant. Successful completion of the Holland College Bioscience program is what must be accomplished. Changed deadline for application to Holland College to reflect current practice.

Added language that better describes the experience of transferring to Holland College and back in pathway 2.

Effective Term: FALL 2025

Implications for Other Programs: No change from current practices for biology or other departments

Impact on Students Currently Enrolled: Added a required course to the pathway 2 program

CALENDAR & CURRICULUM CHANGE

Motion # 65

Revision is for a: **Course Description Change and Prerequisite Addition/Change**

Faculty/School/Department: **Science**

Department/Program(s)/Academic Regulations: **Physics**

MOTION: To approve the course description change and prerequisite change for PHYS-2920 Stars, Galaxies, and the Universe as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>2920 STARS, GALAXIES, AND THE UNIVERSE</p> <p>This course is an introduction to the study of astronomical objects and phenomena. Topics of study include observation of Earth's sky, gravity, light, and its use in astronomical instruments; properties and energy production of our Sun; methods of measuring astronomical distances; the structure, energy, and evolution of stars; interstellar matter and the structure of the Milky Way galaxy; other galaxies; cosmology; and some other related topics of interest.</p> <p>Note: Credit will not be allowed for Physics 2920 if a student has already received credit for Physics 2510 or 2520.</p> <p>PREREQUISITES: A first-year physics course or permission of the instructor.</p> <p>Three-credit hour lecture; three-credit hour laboratory or field observations.</p>	<p>2920 STARS, GALAXIES, AND THE UNIVERSE</p> <p>This course is an introduction to the study of astronomical objects and phenomena. Topics of study include observation of Earth's sky, gravity, light, and its use in astronomical instruments; properties and energy production of our Sun; methods of measuring astronomical distances; the structure, energy, and evolution of stars; interstellar matter and the structure of the Milky Way galaxy; other galaxies; cosmology; and some other related topics of interest.</p> <p>Note: Credit will not be allowed for Physics 2920 if a student has already received credit for Physics 2510 or 2520.</p> <p>PREREQUISITES: A first-year physics course or permission of the instructor. <u>Physics 1110 or Physics 1210.</u></p> <p>Three-credit hour lecture; three-credit hour laboratory or field observations. <u>Three hours lecture, three hours laboratory or observations per week.</u></p>

Rationale for Change: Explicit reference to specific first-year physics courses (Physics 1110 or 1210) in the prerequisites is intended to exclude Physics 1510 (Life in the Universe), which does not provide sufficient preparation for this second-year physics course. Permission of the instructor does not need to be explicitly stated and so is removed. The note regarding Physics 2510 or 2520 has been deleted as these courses were last offered at least a decade ago. The change to the wording of the format of the course (i.e. lectures and lab/observations) is for increased clarity.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 65

CALENDAR & CURRICULUM CHANGE

Motion # 66

Revision is for a: **Course Description Change and Prerequisite Addition/Change**

Faculty/School/Department: **Science**

Department/Program(s)/Academic Regulations: **Physics**

MOTION: To approve the course description change and prerequisite change for PHYS-3120 Electromagnetism I as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3120 ELECTROMAGNETISM I</p> <p>This course develops fundamental concepts in electricity and magnetism. Topics include electric fields and potentials, capacitance, dielectric materials, magnetic fields, magnetic properties of materials, electromagnetic induction, inductance, Maxwell's equations, and an introduction to electromagnetic waves.</p> <p>PREREQUISITE: Physics 2120</p> <p>Three hours lecture, three hours laboratory per week</p>	<p>3120 ELECTROMAGNETISM I</p> <p>This course develops fundamental concepts in electricity and magnetism. Topics include electric fields and potentials, capacitance, dielectric materials, magnetic fields, magnetic properties of materials, electromagnetic induction, inductance, Maxwell's equations, and an introduction to electromagnetic waves.</p> <p>PREREQUISITE: Physics 2120, <u>Physics 2820</u></p> <p>Three hours lecture, three hours laboratory per week</p>

Rationale for Change: Physics 3120 requires a solid understanding of vector calculus, and Physics 2820 (Mathematical Physics) covers in detail all the relevant topics in vector calculus. An additional deletion of the laboratory component corrects an apparently longstanding calendar entry error: there is no lab for this course. It was removed years ago.

Effective Term: Fall 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 67

Revision is for a: **Course Description Change and Prerequisite Addition/Change**

Faculty/School/Department: **Science**

Department/Program(s)/Academic Regulations: **Physics**

MOTION: To approve the course description change and prerequisite change PHYS-3330 Experimental Physics I as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3330 (formerly 4410) EXPERIMENTAL PHYSICS I This intermediate laboratory course is a collection of prescribed experiments designed for developing core experimental skills and conducting laboratory work in the major areas of physics covered in other third-year physics courses. The course will also develop students' knowledge of electronics and give them experience in scientific writing.</p> <p>PREREQUISITE: Physics 3120, or permission of instructor</p> <p>One hour lecture, six hours laboratory per week</p>	<p>3330 (formerly 4410) EXPERIMENTAL PHYSICS I This intermediate laboratory course is a collection of prescribed experiments designed for developing core experimental skills and conducting laboratory work in the major areas of physics covered in other third-year physics courses. The course will also develop students' knowledge of electronics and give them experience in scientific writing.</p> <p>PREREQUISITE: Physics 3120, At least third year standing, Physics 2120 or permission of instructor</p> <p>One hour lecture, s<u>Six</u> hours laboratory per week <u>Semester hours of credit: 3</u></p>

Rationale for Change: In addition to the 6 hours of lab time, this lab course has until now had an additional hour of lecture time to provide the students with guidance for the carrying out the advanced experiments. Recently, the department as determined that this extra hour was not essential and that the 6 hours of laboratory should provide sufficient time for the students to complete the required experiments. This change also reduces the teaching resources required to teach the course and makes timetable planning more straightforward. Physics 3120 is removed as a prerequisite as the course content itself is not vital for Physics 3330. The more relevant prerequisite course of Physics 2120, a second-year electromagnetism course with a lab component, has been added in its place. In addition, the requirement that the student be at least third-year standing will ensure that the student will have the maturity to handle an advanced lab-based course. The explicit reference to permission of the instructor to waive any prerequisite is unnecessary and so is removed.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

NEW COURSE PROPOSAL

Motion # 71

Revision is for a: **New Course Proposal**

Faculty/School: Science

Department/Program(s): **School of Mathematical and Computational Sciences.**

MOTION: To approve the new course, “AMS 1910 Introduction to Data Science” as proposed.

Course Number and Title	AMS 1910 Introduction to Data Science
Description	This course provides an introduction to data analysis, artificial intelligence and business intelligence tools, equipping students with the skills to explore, analyze, and communicate data-driven insights effectively. Students will learn to manipulate datasets, perform basic exploratory data analysis, and build interactive dashboards using widely available platforms. The course emphasizes hands-on practice with real-world datasets, focusing on data cleaning, visualization, and predictive modelling. Students will develop the ability to tell compelling stories with data, create professional-grade reports, and communicate actionable insights to diverse audiences. No prior coding experience is required.
Cross-Listing	
Prerequisite/Co-Requisite	Admission to a major in the School of Mathematical and Computational Sciences, or permission of the instructor.
Credit(s)	3
Notation	Three lecture hours.

This is: A Core Course

Grade Mode: Numeric (Standard)

Anticipated Enrolment: 40

Is there an Enrolment Cap: Yes

If there is an enrolment limit, please explain. Since communication is an integral part of this course, a cap of 40 students ensures that students get adequate individualized feedback. The instructor should also have the option of conducting the course in a computer lab, which typically have a maximum capacity of 40.

Rationale for New Course: In the 2021 quality assurance review of SMCS programs, it was recommended that courses specific to Data Science should be added to the Analytics Programs. Such a suite of courses is needed to develop analytical skills, as well as skills related to handling data, ethical use of data, and understanding the needs of stakeholders. This course is a first step in acting on those recommendations. In the same review, it was recommended that an Introduction to Data Science course be added to the Statistic Programs.

Effective Term: FALL 2025

Implications for Other Programs: N/A

SUMMARY OF CHANGES FACULTY OF SCIENCE

Motion # 71

LIBRARY RESOURCE REQUIREMENTS FOR A NEW COURSE PROPOSAL

AMS 1910 Introduction to Data Science

To be completed by the liaison and/or collections librarian.

Note that the submitting program is required to allow the library staff two weeks to complete this.

Existing resources:

- Collections
 - O'Reilly Online Library (Subscription) includes books on "data science"
 - 2,226 titles according to Publication Finder
 - 9,541 titles/items according to O'Reilly search
- Interdisciplinary packages that include content that support this course (searching for "data science"):
 - EBSCO e-books/Ebook Academic Collection (~2500 according to Publication Finder)
 - Proquest Ebook Central (~1200 according to Publication Finder)
- Physical Space in Library (other than collections, explain) - none
- Library Administrative/Research Support
 - SMCS Liaison librarian, Rosie Le Faive, can consult on library resources or research.

New resources needed to support this proposal:

- Collections:
 - Monographs
 - Additional perpetual access ebooks would be desirable. The liaison librarian will look into fleshing out our collection.
 - Subscriptions/Databases - none
 - Other including potential Open Educational Resources (OERs) - none
- Physical Space in Library (other than collections, explain) - none
- Library Administrative/Research Support - none
- Other One-Time or Ongoing Library expenses (e.g. software licenses, explain)

Summary of additional budget allocation required:

- First year startup: \$ __0__ in first fiscal year the course/program is offered
- Additional startup years: \$ __0__ in second year, \$ __0__ in third year....
- Annual: \$ __0__ in addition to the startup figure(s) above starting in the fiscal year AFTER the year the course is first offered
 - Per-year percentage increase in annual: __0__

Does the budget allocation for library resources in this proposal meet the requirement?

Note that if future budget constraints require the Library to cancel interdisciplinary packages listed above, there may be a loss of resources needed for this course.

Date Received by Liaison/Collections Librarian	January 22, 2025

Approved by University Librarian or Designate	Donald Moses
Date Approved by UL or Designate	February 5, 2025

SUMMARY OF CHANGES FACULTY OF SCIENCE

Motion # 72

Revision is for a: **New Course Proposal**

Faculty/School: Science

Department/Program(s): **School of Mathematical and Computational Sciences**

MOTION: To approve the new course “CS 4140 Deep Learning” as proposed.

Course Number and Title	CS 4140 Deep Learning
Description	This course explores the theoretical foundations and practical applications of deep learning in artificial intelligence (AI). Students will gain hands-on experience with neural network architectures, from basic feedforward networks to sophisticated transformer models, and will explore the concept of transfer learning to leverage pre-trained models for specialized tasks. Through project-based learning, students will design and conduct deep learning experiments, analyze results, and present findings in a conference-paper format. Emphasis is placed on understanding AI limitations, ethical considerations, and risk mitigation strategies. By course completion, students will be equipped to implement, evaluate, and critically assess deep learning solutions for real-world applications.
Cross-Listing	
Prerequisite/Co-Requisite	CS 4120 Machine Learning
Credit(s)	3
Notation	Three lecture hours.

This is: A Core Course

Grade Mode: Numeric (Standard)

Anticipated Enrolment: 40

If there is an enrolment limit, please explain.

Is there an Enrolment Cap: No

Rationale for New Course: Deep Learning, along with Machine Learning, has become an essential methodology for Data Scientists, as well as Computer Scientists working in a number of fields. Deep Learning is critical for solving complex, real-world problems that involve large unstructured datasets, such as images, audio, and text.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

Resources Required: Sessional stipend may be required

In offering this course will UPEI require facilities or staff at other institutions: No

Department/Program(s)/Academic Regulations: **School of Mathematical and Computational Sciences**

MOTION: To approve the course title change and course description change of “STAT 1210

Introduction to Statistics for the Life and Social Sciences” as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>1210 INTRODUCTORY STATISTICS</p> <p>The main objective of this course is to introduce the basic concepts of descriptive statistics, statistical inference, and the use of statistical software such as MINITAB to students in any discipline. More time is spent on statistical inference than on descriptive statistics. Topics include frequency distributions, descriptive statistics, rules of probability, discrete and continuous probability distributions, random sampling and sampling distributions, confidence intervals, one- and two-tail tests of hypotheses, and correlation and linear regression.</p> <p>PREREQUISITE: Grade XII academic Mathematics.</p> <p>Three lecture hours per week</p> <p>NOTE: Credit will not be allowed for Statistics 1210 if a student has received credit for any of the following courses: Business 2510, Education 4810, Psychology 2710 and Sociology 3320. Credit for Statistics 1210 will not be allowed if taken concurrent with or subsequent to Statistics 1910</p>	<p>1210 <u>INTRODUCTORY STATISTICS</u> <u>INTRODUCTION TO STATISTICS FOR THE LIFE AND SOCIAL SCIENCES</u></p> <p>The main objective of this course is to introduce the basic concepts of descriptive statistics, <u>and</u> statistical inference, and the use of statistical software such as MINITAB to students in <u>any discipline outside of SMCS</u>. More time is spent on statistical inference than on descriptive statistics. Topics include frequency distributions, descriptive statistics, rules of probability, discrete and continuous probability distributions, random sampling and sampling distributions, confidence intervals, one- and two-tail tests of hypotheses, and correlation and linear regression.</p> <p>PREREQUISITE: Grade XII academic Mathematics.</p> <p>Three lecture hours per week</p> <p>NOTE: Credit will not be allowed for Statistics 1210 if a student has received credit for any of the following courses: Business 2510, Education 4810, Psychology 2710 and Sociology 3320. Credit for Statistics 1210 will not be allowed if taken concurrent with or subsequent to Statistics 1910.</p>

Rationale for Change: To make the differences between STAT 1210 and STAT 1910 more clear and to align the STAT 1210 name and description more closely with what is currently being taught.

MOTION: To approve the course title and course description change for “STAT 1910 Introduction to Probability and Statistics” as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>1910 INTRODUCTION TO PROBABILITY AND STATISTICS</p> <p>This course provides an introduction to the theory and applications of statistics and probability. Topics include descriptive statistics, statistical inference for means and proportions, analysis of variance (ANOVA), correlation and regression. Note that this course is designed for students who have a firm grasp of grade 12 math skills, and is a prerequisite for all additional statistics courses.</p> <p>PREREQUISITE: Grade XII academic Mathematics.</p> <p>Three lecture hours plus a 1.5 hour lab per week</p>	<p>1910 INTRODUCTION TO PROBABILITY AND STATISTICS</p> <p>This course provides an introduction to the theory and applications of statistics and probability. Topics include descriptive statistics, statistical inference for means and proportions, analysis of variance (ANOVA), correlation and regression. <u>This course introduces students to statistical reasoning and data analysis using R. Emphasizing modern computational approaches, students will learn to summarize and visualize data, apply inferential techniques (e.g., confidence intervals, hypothesis tests, and ANOVA), and model relationships (e.g., regression). Core statistical concepts, including randomization tests, bootstrapping, and the Central Limit Theorem, will be explored through theoretical and applied perspectives. Designed for students with a strong foundation in grade 12 mathematics, this course focuses on interpreting results, making data-driven decisions, and preparing for advanced studies in statistics.</u></p> <p>PREREQUISITE: Grade XII academic Mathematics.</p> <p>Three lecture hours plus a 1.5 hour lab per week</p>

Rationale for Change: The revised course description differentiates this statistics course from the proposed “AMS 1910: Introduction to Data Science” by emphasizing its focus on the theoretical foundations and traditional statistical methodologies, as well as the use of R for statistical computation.

Effective Term: FALL 2025

Revision is for a: Pre-requisite Addition/Change

Faculty/School/Department: Science

Department/Program(s)/Academic Regulations: **Mathematical and Computational Sciences**

MOTION: To approve pre-requisite change for “STAT 2910 Probability and Mathematical Statistics I” as proposed

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>2910 PROBABILITY AND MATHEMATICAL STATISTICS I</p> <p>This course is an introduction to the theoretical basis of statistics for students who have completed STAT 1910. The study concentrates on the mathematical tools required to develop statistical methodology. Topics covered include: probability, continuous and discrete random variables, moment generating functions, multivariate probability distributions and functions of random variables.</p> <p>PREREQUISITE: MATH 2910 and STAT 1910 or permission of the instructor.</p> <p>Three lecture hours per week</p>	<p>2910 PROBABILITY AND MATHEMATICAL STATISTICS I</p> <p>This course is an introduction to the theoretical basis of statistics for students who have completed STAT 1910. The study concentrates on the mathematical tools required to develop statistical methodology. Topics covered include: probability, continuous and discrete random variables, moment generating functions, multivariate probability distributions and functions of random variables.</p> <p>PREREQUISITE: MATH 2910 and STAT 1910 or permission of the instructor.</p> <p><u>COREQUISITE: MATH 2910 must be completed or taken concurrently.</u></p> <p>Three lecture hours per week</p>

Rationale for Change: MATH 2910 is an appropriate corequisite. This change will provide flexibility for students in the Statistics, Actuarial Science, Financial Math, Data Analytics and Business Analytics programs, given that STAT 2910 is a pre-requisite for at least four other 3000 and 4000-level required courses.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 78

Revision is for a: **Course Number Change and Pre-requisite Addition/Change**

Faculty/School/Department: Science

Department/Program(s)/Academic Regulations: **School of Mathematical and Computational Sciences**

MOTION: To approve the course number change and pre-requisite change for “STAT 3240 Applied Regression Analysis” as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>3240 APPLIED REGRESSION ANALYSIS</p> <p>This course builds upon the basis of inference studied in Statistics 1910 and provides students with an advanced knowledge of regression techniques. Topics covered are simple and multiple linear regression techniques, matrix notation, the design matrix, model building techniques, residual analysis, and non-linear regression.</p> <p>PREREQUISITE: STAT 1910 and MATH 2610</p> <p>Three lecture hours per week</p>	<p>3240 <u>2240</u> APPLIED REGRESSION ANALYSIS</p> <p>This course builds upon the basis of inference studied in Statistics 1910 and provides students with an advanced knowledge of regression techniques. Topics covered are simple and multiple linear regression techniques, matrix notation, the design matrix, model building techniques, residual analysis, and non-linear regression.</p> <p>PREREQUISITE: STAT 1910 and MATH 2610</p> <p><u>COREQUISITE: MATH 2610 must be completed or taken concurrently.</u></p> <p>Three lecture hours per week</p>

Rationale for Change: Moving Applied Regression to a 2000-level course signals its role as a natural “second statistics course” for students who have completed STAT 1910. This aligns with the desire to offer students an applied alternative to STAT 2910, which is highly mathematical in focus. Allowing MATH 2610 to be taken concurrently ensures students can enroll earlier, addressing potential barriers to progression in the program. MATH 2610 (linear algebra) can be a prerequisite or co-requisite, as its content becomes relevant around week 6 of the course.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 79

Revision is for a: **Course Number and Prerequisite addition / change**

Faculty/School/Department: Science

Department/Program(s)/Academic Regulations: **School of Mathematical and Computational Sciences**

MOTION: To approve course number change and prerequisite change for “STAT 4240 Experimental Design” as proposed.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>4240 EXPERIMENTAL DESIGN</p> <p>This course builds upon the basis of inference studied in Statistics 1210 and Statistics 3240 to include statistical techniques commonly used in experimental studies. Students will study topics such as analysis of variance models, hypothesis testing in ANOVA models, randomization, and blocking techniques.</p> <p>PREREQUISITE: STAT 3240</p> <p>Three lecture hours per week</p>	<p>4240 <u>3340</u> EXPERIMENTAL DESIGN</p> <p>This course builds upon the basis of inference studied in Statistics 1210 and Statistics 3240 to include statistical techniques commonly used in experimental studies. Students will study topics such as analysis of variance models, hypothesis testing in ANOVA models, randomization, and blocking techniques.</p> <p>PREREQUISITE: STAT 3240 <u>2240</u> (Previously <u>STAT 3240</u>)</p> <p>Three lecture hours per week</p>

Rationale for Change: The current statistics program is top-heavy, with the majority of courses (9 out of 13) at the 4000-level. Stat majors only have one 1000-level course, one 2000-level course, and two 3000-level courses available, creating a steep progression. Additionally, five 4000-level courses are required for majors (eight for honors students), far exceeding requirements in comparable programs like mathematics and computer science, which have fewer upper-level requirements. This imbalance makes the program less accessible for students.

Total Semester Hours of Credit		23	Total Semester Hours of Credit		23

Rationale for Change: At the SMCS retreat held in August 2024, there was a discussion on addressing the question as to whether CS 1920 should be a required course for all SMCS programs. While the course

CALENDAR & CURRICULUM CHANGE

Motion # 82

is needed for students pursuing Computer Science and related programs (Data Analytics, e.g.), there are questions as to whether it benefits students in other programs (Mathematics, Statistics, and Actuarial Science, e.g). There was a comprehensive discussion at the School Retreat, Working Group and the Program Committee regarding the removal of CS 1920 from the common core from some programs. There was a vote during the School meeting on the issue, and there was strong support for removing CS 1920 from the Common Core. The requirement (CS 1920) would then be added to each of the individual program descriptions. In this initial proposal, SMCS is not proposing that CS 1920 be removed from any particular program. By simply moving it from the Common Core into the list of individual program requirements, no individual program requirements would change. Once CS 1920 is removed from the Common Core, the necessity of CS 1920 could then be considered on a program-by-program basis. Again, any removal of the CS 1920 requirement from a particular program would be considered separately.

Rationale for Change: The material in AMS 3140 overlaps significantly with STAT 2910, which is also a required course in this program. Benefits of the course do not sufficiently justify the resources required to offer it on a regular basis. The course AMS 4450 Statistics for Risk Modelling is essential for students interested in completing the first three professional exams required to work as an Actuary. The material in AMS 4450 is also increasingly relevant to students in the program, whether they complete the professional exams or not.

CALENDAR & CURRICULUM CHANGE

Motion # 84

Rationale for Change The material in AMS 3140 overlaps significantly with STAT 2910, which is also a required course in this program. Benefits of the course do not sufficiently justify the resources required to offer it on a regular basis.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

Rationale for Change: In the 2021 quality assurance review of SMCS programs, it was recommended that courses specific to Data Science should be added to the Analytics Programs. The addition of AMS 1910 is a first step in acting on those recommendations. The courses CS 4120 Machine Learning, CS 4140 Deep Learning, and CS 4440 Data Science have been added since they are seen as essential to any Data Science or Analytics Program. This also brings the Business Analytics Specialization into closer alignment with the Data Analytics Specialization, where both specializations now contain a suite of courses in Data Science, Machine Learning and Deep Learning to deliver essential computational skills. In the afore mentioned review, Math 2720 and Math 3430 were identified as courses that were not tied to any

CALENDAR & CURRICULUM CHANGE

Motion # 85

specific skills or outcomes required for the Analytics program. The remove of these courses as well as two SMCS electives allows for the addition of more appropriate courses.

Effective Term: FALL 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: N/A

CALENDAR & CURRICULUM CHANGE

Motion # 95

Rationale for Change: Experiences gained in general private practice are highly relevant for developing the day-one skills expected of competent veterinarians, which is the primary objective of the DVM program. The value of external clinical experiences is also emphasized by the accrediting body, the AVMA Council on Education. General practice opportunities are more plentiful and accessible in the Atlantic Region compared to specialty practice externships. With students facing increasing financial challenges, traveling long distances to access specialty practices has become less feasible. This issue is particularly pronounced for food animal and equine experiences, where gaining access to specialists is notably difficult. Additionally, under the Provincial Admissions Agreements for regional students, those from New Brunswick, Nova Scotia, and Newfoundland are required to complete their fourth-year external clinical experiences within their home provinces. Consequently, the majority of these opportunities will naturally occur in general practice settings. Extending the maximum number of semester hours students can spend in general private practice enables the program to provide more accessible and valuable external experiences. These opportunities align with the program's goals by ensuring students acquire the broad, practical skills necessary for success as day-one-ready veterinarians.

Effective Term: SUMMER 2025

Implications for Other Programs: N/A

Impact on Students Currently Enrolled: Current DVM students entering their fourth year in May 2025 will be able to take up to 12 weeks of external clinical experiences in general private practice.

CALENDAR & CURRICULUM CHANGE

Motion # 96

Revision is for a: **Calendar Entry Change**

Faculty/School/Department **Veterinary Medicine**

Department/Program(s)/Academic Regulations: **Doctor of Veterinary Medicine**

MOTION: To amend the admissions pools for the Doctor of Veterinary Medicine program by:

1. Renaming the *International* pool as the *Unsubsidized* pool and the *Regional* pool as the *Subsidized* pool.
2. Expanding eligibility for Unsubsidized seats to include Canadian applicants.

<u>Reproduction of Current Calendar Entry</u>	<u>Proposed revision with changes underlined and deletions indicated clearly</u>
<p>34 Doctor of Veterinary Medicine</p> <p>DVM program admissions information is organized into five (5) sections:</p> <ol style="list-style-type: none"> 1. Admissions Overview 2. Phase One DVM Admissions Requirements 3. Phase Two DVM Admissions Requirements 4. DVM Application Procedure/Documents Required 5. General DVM Applicant Information <p>1. Admissions Overview</p> <p>The Atlantic Veterinary College (AVC) at the University of Prince Edward Island (UPEI) is a regional institution that serves the needs of Atlantic Canada. The college is funded by the four Atlantic provinces, Prince Edward Island, Nova Scotia, New Brunswick, and Newfoundland and Labrador, and approximately three quarters of the seats in the program are reserved for Atlantic Canadian residents.</p> <p>These seats are divided into four distinct applicant pools - one for each province. Each province determines their number of subsidized seats and conditional eligibility requirements. The remaining seats are allocated to international applicants (including those from the United States), constituting a fifth applicant pool.</p>	<p>34 Doctor of Veterinary Medicine</p> <p>DVM program admissions information is organized into five (5) sections:</p> <ol style="list-style-type: none"> 1. Students must be able to execute motor movements required to provide general and emergency medical and surgical care to animal patients in a variety of settings.</p> <p><i>Intellectual Conceptual, Integrative and Quantitative Abilities:</i> Students must demonstrate the cognitive skills and memory necessary to measure, calculate, analyze, integrate and synthesize large quantities of information from various sources. Students must be able to comprehend dimensional and spatial relationships. Students must be able to execute complex problem-solving activities in a timely fashion.</p> <p><i>Behavioural and Social Attributes:</i> Students must manage the intellectual challenges of the program. Students must apply good judgment and promptly complete all responsibilities attendant to the diagnosis and care of animal patients. Students must cultivate mature, sensitive, and effective relationships with clients and other members of the veterinary health care team. Students must be able to tolerate the physical, emotional, and psychological demands of the program and function effectively under stress. Adaptability to changing environments and the ability to function in the face of uncertainties inherent in the care of animal patients are necessary skills. Personal qualities exemplified by members of the veterinary profession such as compassion, integrity, concern for others, effective interpersonal skills, initiative, and motivation are also expected of students.</p> <p>The AVC is committed to facilitating the integration of students with disabilities. Students with a disability will receive reasonable accommodation that will assist them in meeting the requirements for graduation from the DVM program. Such accommodations however cannot compromise animal well-being or the safety of people involved. Consequently, it may not be possible to accommodate all disabilities and facilitate successful completion of the DVM program. For additional</p>

CALENDAR & CURRICULUM CHANGE

Motion # 96

Rationale for Change: 1. To improve access to veterinary education for Canadian applicants; 2. To improve access to veterinary education for regional applicants who do not wish to sign a Provincial Attestation Agreement; 3. To strengthen the viability, competitiveness and stability of the applicant pool for the DVM program by broadening access to unsubsidized seats. This is influenced by the following factors: (a) New veterinary colleges are opening in the United States, (b) Existing veterinary colleges are expanding enrolment, (c) Recent changes to Immigration, Refugees and Citizenship Canada (IRCC) policies may impact the ability of international students to obtain study permits; 4. To expand the pool of highly qualified applicants, creating opportunities for enrollment growth. **Please note that the above process for applicants applying to the subsidized or unsubsidized pool is intended for the 2025-2026 admissions cycle only. A long-term, sustainable process is being developed for 2026-2027 and beyond, in collaboration with the Registrar's Office.**
